GOVERNOR HEARS THE OTHER SIDE OF THE QUARREL

Result Is to Dissipate Remaining Doubt That He Will Retain Recorder Brown to End of Term.

LONG TALK WITH THOMAS BIGELOW

Executive Never Desired to Remove Pittsburgh Chief Magistrate, and His Visitor Convinced Him of Necessity of Wholesale Changes.

THE CONFERENCE IS TO BE RENEWED TODAY

BY CHESTER D. POTTER,
Staff Correspondent.

PHILADELPHIA, Nov. 20.—Gov. William A. Stone and Thomas S. Bigelow got together on the Pittsburgh situation this afternoon. They met in this city. The fact that they not only met here, but continued their conference as fellow-passengers on the train which left for Harrisburg and Pittsburgh at 4:30 this afternoon, indicates that the governor and the stalwart leader from Pittsburgh had much of mutual interest to discuss.

Those who profess to know say that Gov. Stone has not, at any time, desired to remove Recorder Brown; that his displeasure was based entirely upon the large number of removals made by the recorder, who, it is claimed, did not first advise the governor of his intention. Until very recently Governor Stone was made acquainted with the reasons which, in the recorder's opinion, made wholesale dismissals necessary. Since hearing the "other side," it is said, the governor has radically changed his position and now believes the end justified the means.

This is the first time Mr. Bigelow has met the governor for some months. It was by sheer chance that their being in juxtaposition became known.

Kept Their Secret Well.

Extraordinary caution was observed by both gentlemen in their efforts not to make their meeting a subject of newspaper discussion. In this regard they were quite successful, both making their escape from the city without casting any horoscopes. As a whole, the conference was handled much better than the one Senator Flinn arranged when he met the governor at the Hotel Walton last week.

Mr. Bigelow reached the city this morning. He took a room at the Stratford. He sent word to the Walton, where Gov. Stone always stops, that he was here; but the governor did not arrive until after 3 o'clock this afternoon. He went at once to the office of the assistant to the president of the Pennsylvania railroad, William A. Patton, in the Broad street station. There he met the correspondent of The Gazette.

"Nothing new; I just came over on some private business; will see you later," said the governor to the writer.

On second thought the governor decided not to go to Walton. So he sent word to Mr. Bigelow to meet him at the station. Mr. Bigelow sent out a rush order for a cab and was whirled up to the Pennsylvania railroad offices. There the governor met him. They talked until the last minute, and then boarded the 4:30 train. They reached Harrisburg at 6 o'clock. Here it is not known whether Mr. Bigelow stopped off or not. If he remained on the train he would reach Pittsburgh after midnight.

Stalwart Leaders Encouraged.

While here Mr. Bigelow tried hard to connect with J. N. Pew, but Mr. Pew was engaged in a business meeting and did not reach the hotel until after Mr. Bigelow had left for the west.

The meeting between the governor and Mr. Bigelow has given much encouragement to the local stalwart leaders. **It is construed to mean that Gov. Stone has decided to not remove Recorder A. M. Brown, and that a satisfactory adjustment of the Pittsburgh political tangle is now certain.**

HARRISBURG, Nov. 20.—(Special.)—Thomas S. Bigelow's presence in Harrisburg tonight has revived interest here in the Pittsburgh situation. Mr. Bigelow arrived on an evening train from Philadelphia and will see Gov. Stone again tomorrow to talk over political affairs in Pittsburgh. He spent the early evening at the Lochiel hotel with Attorney General Elkin, Public Buildings Superintendent Eyre, Banking Commissioner Reeder and other stalwart leaders.

"I shall probably have something to say after my meeting tomorrow with Governor Stone," said Mr. Bigelow to the Gazette correspondent. **I am confident, however, that Recorder Brown will serve out his term, and that the governor has no intention of removing him.** There is nothing in the story that Major Brown has been tendered the place of Superior Court Judge Mitchell, who may retire under the judges' retirement bill on account of physical disability. For good reasons, I prefer to say nothing more until after I have seen the governor."

Why Bigelow Stopped at Hotel.

Governor Stone and Mr. Bigelow traveled all the way from Philadelphia to Harrisburg together, and the only reason why Mr. Bigelow is not staying at the executive mansion is because he preferred to spend the night at the hotel where he might meet Mr. Elkin and other stalwart leaders.

While no one here is authorized to speak for the governor, those in his confidence are certain that Mr. Bigelow is right when he says Recorder Brown will be allowed to serve out his term. They assert that nobody outside of Pittsburgh is taking any interest in the political situation there, and that the governor is not giving himself as much concern about it as Senator Flinn and his adherents would have the public believe.

Miss Jean Stone sailed today from New York for Europe to finish her education, and the governor and Mrs. Stone were there to see her off.

Insurgents Depressed.

The news that Thomas S. Bigelow had been called east by Gov. W. A. Stone to discuss the local political situation, and the fact that Maj. Brokn was still recorder of Pittsburgh greatly deepened the depression of spirits among the insurgent chieftains and their followers yesterday. The non-fulfillment of their oft repeated predictions added to the tidings that Gov. Stone was treating with the leaders of the stalwart wing of Allegheny county, put the Flinn politicians almost on the verge of collapse.

That Gov. Stone requested a conference with Mr. Bigelow is taken by both local factions as evidence that the cause of the insurgents was in sore straits, and that the governor had practically concluded negotiations with the Flinn men.

This is the first time that Mr. Bigelow has held a political conference with Gov. Stone since the appointment of Maj. Brown as recorder. Mr. Bigelow has never sought a meeting with the governor, and would not have gone east to see him except at the request of the state executive.

The conference is expected to settle definitely all matters pending in Allegheny county, including the Pittsburgh recordership, the county ticket and the present councilmanic campaign, as well as arrangements for political action in the future. It has given the stalwarts increased confidence that there will be a change in the city administration, and they will be allowed full sway by the state administration in building up a dominant organization in Allegheny county.

Yesterday was the last day set by many of the insurgents for the removal of the recorder, and numerous bets, based upon that presumption, were paid over last night to lucky stalwarts.

For the past week the stalwart leaders have been meeting daily at their headquarters in Third avenue with the leaders of the various wards of the city. Eighteenth ward leaders were in conference yesterday. Every ward in the city has been well organized, and nearly everyone will have headquarters of its own. The first five wards will probably meet at the general headquarters in Third avenue. The Sixth ward stalwarts will meet at the Union league club rooms.

New Headquarters Opening.

The stalwarts of the Seventh, Eighth, Ninth and Tenth wards will open headquarters next week. A committee representing the colored voters of the Seventh, Eighth, Eleventh and Thirteenth wards called yesterday at the Third avenue headquarters to arrange for opening headquarters of their own next week in either Fulton street or Wylie avenue.

The stalwarts of the Eleventh and Thirteenth wards have engaged headquarters at Center avenue and Erin street. The Twelfth ward stalwarts have opened headquarters at No. 2616 Penn avenue. Headquarters will be opened up early next week by the Fourteenth ward stalwarts in Oakland, either in Fifth avenue or Forbes street. The stalwarts of the Fifteenth and Seventeenth wards have gone together and will open headquarters next week in Butler street, near Forty-sixth street. The Sixteenth ward stalwarts met yesterday and arranged for opening headquarters.

The headquarters opened by the stalwarts of the Nineteenth ward at No. 6019 Penn avenue are almost as large as the general headquarters in Third avenue. The Twentieth ward headquarters were opened some time ago at Lincoln and Frankstown avenues. The stalwarts of the Twenty-second ward are expected to open headquarters next week. The headquarters opened by the stalwarts of the Thirty-second ward this week proved too small to hold the crowds, and it has been determined to get larger rooms. The Twenty-fifth ward stalwarts have had their headquarters in Carson street opened for some time, and meetings are held there every Friday night. The Thirty-seventh ward stalwarts have selected rooms for headquarters at Brushton avenue and Mulford street.

Dr. B. Frank Pierce of Braddock, who has announced himself as a stalwart candidate for the senate to succeed Senator William Flinn, yesterday commenced setting up delegates and will soon commence an active campaign.

QUEEN DRAGA ASSASSINATED?

Report That the Queen of Servia Was Shot Down in the Streets of Belgrade.

VIENNA, Nov. 20.—An unconfirmed report has reached Vienna that Queen Draga has been shot at in the streets of Belgrade.

QUEEN DRAGA.

The Neue Freie Press and other Vienna papers publish various rumors, one declaring that the Servian queen was assassinated, another that she was wounded, and a third that she committed suicide.

Reports from other sources deny the statement that Queen Draga was killed, and assert that the rumor of her death was caused by an hysterical scene with King Alexander.

There is no reliable information on the subject here, but it is generally believed that a serious crisis exists in Belgrade.

PARIS, Nov. 21.—According to a dispatch from Vienna to the Echo de Paris, an attempt has been made to assassinate the queen of Servia, three shots having been fired at her while she was driving near Semlin.

A dispatch to the same paper from Belgrade gives a rumor that the queen attempted suicide at Semlin.

100 MEN PERISHED IN A FIRE IN A MINE

Fire Breaks Out in the Bullion Tunnel at Telluride, Col., Imprisoning the Workmen. Twenty-Two Bodies Recovered.

TELLURIDE, COL., Nov. 20.—What is likely to prove the most disastrous accident that has ever occurred in a metallic mine in Colorado resulted today from a fire which burned the buildings at the mouth of the bullion tunnel through which the Smuggler-Union mine is worked and which filled the mine with deadly gas and smoke. It is impossible to give even an approximate estimate of the loss of life, but it is believed that it will reach nearly, if not quite, 100. Twenty-two are known to have perished.

The fire started early this morning from a defective flue in the bunk house at the mouth of the tunnel. It quickly communicated with the other buildings. The dense smoke from the burning converter house, which was saturated with oil, began pouring into the tunnel, which, with the shafts of the mine, acted as a chimney. The day shift had just gone on duty and before they could be warned of their danger the levels and the slopes were filled with gas.

Escaped Through Old Workings.

As soon as the men became aware of their danger efforts were made to reach the surface through various exits and about half of those in the mine escaped. It will be impossible to ascertain the number still in the mine for several hours on account of the gas in the several levels.

The Smuggler-Union mine is one of the oldest in the district and has several abandoned openings, some of which were available. Most of those who escaped did so through the old Union workings and the old Sheridan tunnel.

The rescuing party cut a connection through from the Commission workings adjoining, and took out some of the men. Although the buildings were but partly consumed, the dense smoke continued to pour into the tunnel, and it was not until late this afternoon that it occurred to the management to shut off the draft by blasting rock into the tunnel. It is believed by mining men that had this been done as soon as the fire started all loss of life might have been avoided. The property loss is about $50,000, fully covered by insurance.

Many Bodies Recovered.

It was 1 o'clock before the first body was taken out, and at 8 o'clock 22 bodies had been recovered. These have all been identified as follows: August Jaanta, Allen Henderson, Chris Makl, Tortenetor Knos, the shift boss; William Warfield, John Peterson, William Jones, William Graham, Frank Jadra, Mart Jadra, Gus Sundberg, Obita Rebatta, Anton Anetl, John Glosson, Lewis Begigin, E. Labinstron, Joe Nelson, John Ahnoe, Mark Stark, Alexander Soloman, Sorey Barkley, time boss; James Sunstrum.

Hugh J. O'Neill, the engineer, was taken out alive, but is not expected to recover.

Every physician in Telluride was summoned to the mine and was kept busy attending those of the rescuers who were overcome by gas.

Seventeen of the 22 bodies found were found on the seventh level. Between 75 and 90 men were working on the ninth level, and this has not yet been explored. On account of the gas and smoke these levels could not be entered because of the danger of suffociation for 12 hours after the flames started.

A NEW PROCESS STEEL SAID TO CUT REGULAR STEEL LIKE SOFT WOOD

As Armor Plate, It Resists Shot That Penetrates Best Krupp Product.

INVENTED IN GERMANY

(SPECIAL CABLE TO THE GAZETTE.)

BERLIN, Nov. 20.—The trials having been completed at the Royal Technical high school of a new mode of steel manufacture, it is declared by experts that the new process is likely to have a revolutionary effect upon the world's metal industry.

The invention is by a Mecklenburg manufacturer, named Giebeler, and it consists of imparting to all grades of iron a strength and hardness surpassing nearly double the best known Harvey, Krupp or Boehler steel, while cheapening the production over 50 per cent.

Projectiles hurled at armor plate which had been treated with the Giebeler process and seven and three-quarters millimeters thick, made an impression of only one millimeter, while Kruppized armor four millimeters thicker was completely punctured. The resistance experiments showed even more astonishing results.

Among the peculiar features of the process is the increasing strength accruing as the steel grows cold, and it is claimed the process permits the metal to be worked cold or hot. Blades made from this new steel will chop other steel and iron into splinters, just as ordinary steel cuts wood.

Next week the representatives of Giebeler will go to America with the intention of submitting the process to the great mills of the United States.

Akron Cannot Issue Bonds.

AKRON, O., Nov. 20.—(Special.)—Judge D. J. Nye of Elyria, who heard several weeks ago the suit to restrain the city of Akron from issuing $168,000 worth of bonds for the purpose of taking care of the municipal indebtedness, rendered his decision today, granting the injunction as prayed for. Relief can now only be obtained by act of the legislature and the general assembly will be asked to allow the city to issue bonds very early in the session.

UNKNOWN THROWS HIMSELF HEADLONG INTO BLAST FURNACE

Rode On a Hoisting Cage 58 Feet With Workers, Then Made Horrid Plunge.

ENTIRE BODY ROASTED

A few moments after midnight an unknown man threw himself headlong into one of the furnaces at Schoenberger's mills, Fourteenth and Etna streets. Almost his entire body was roasted beyond identification, his left foot being the only part not disfigured. It was a deliberate suicide seen by three workers at the mill, namely, Thomas Lee, Martin Kataney and Patrick Gallagher. A few moments before midnight the man was seen to enter the millyards and stand at the foot of the hoisting cage which carries ore, coke and other supplies for the furnace. The moment that a warning was sounded for the cage to accend with its burden the three men saw the suicide jump on the platform and stand within a few feet of them. They were confused and did not know what to think of him, as no one but employes is allowed on these cages. When the top of the furnace was reached, nearly 100 feet from the level, Lee determined to order him away. The huge crib was opened to allow the car of coke to roll into the furnace and the bell was lifted, throwing a terrific heat from the fiery substance underneath. Lee had not had time to open his mouth when the man threw himself headlong into the furnace. Quick as a flash Lee saw the action and dropped the bell, but all too late. The man was buried head and shoulders in the flames. The lid of the bell caught his left foot, saving only it from being consumed. He was pulled out about three minutes later, every part of his body resembling a piece of half-cooked meat. No one can remember of ever having seen him before, and it is probable he will never be identified. The body was removed to the morgue. The following description was given by the men who saw his horrible feat: About 35 years old, medium height, sandy mustache and apparently an American. He wore black laced shoes.

THE GAS DAYS ARE ENDED IN HOOSIERDOM

Skies Once Clear Now Overcast With Dense Clouds of Smoke.

FUEL CHANGE EVEN CAUSES A DIVORCE

But There Is No Indication That the Belt Will Lose Its Industries.

NO NEW GAS REGION TO LURE THEM AWAY

Manufacturers Either Build Fuel Plants of Their Own or Resort to Cheap and Plentiful Indiana Coal. Ohio Conditions Not Repeated.

(SPECIAL TELEGRAM TO THE GAZETTE.)

MUNCIE, IND., Nov. 20.—The first brush of winter, during the past two weeks, has made it plain that the Indiana gas belt is nearing its end, so far as natural gas is concerned. In Anderson, Muncie, Elwood, Alexandria, Kokomo and all other towns in the gas belt, with the possible exception of Marion, people have been compelled to fall back upon wood and coal for heat and rely upon coal oil for light. In Anderson it was necessary for the Citizens Gas Company to issue a public statement through the papers Monday instructing consumers to lay in a supply of wood and coal, because the gas supply, until January or February at least, would not be adequate to meet the demand. The situation had reached such a climax in all of the other cities that there was no necessity to issue such a notice, for the fact was self-evident.

In this city people have been forced to go to bed to keep warm, and they have not had enough gas to make a reading light. Several hundred have taken out their gas connections altogether. On Monday and Tuesday 300 Anderson people severed connections with the source of gas supply. In Indianapolis practically everybody is using other fuels to help along the gas, and the smoke is so thick in the down-town districts, and especially in the vicinity of the postoffice, as to look like fog. The Soldiers and Sailors' monument, which has kept its clean white color for 13 years, is already dingy. People say, "Goodness me! this is like Pittsburgh!"

Chicago Company Wiser.

The only people that have enough Indiana gas to keep warm are the 10,000 consumers in Chicago. Their service still remains superb, and it is due to the fact that the Chicago company is the only one that has operated in the Indiana gas belt on truly scientific and economical principles.

The city of Wabash found it necessary during the past week to cut off all her factories. Noblesville and other towns have done the same. In the gas belt many factories have been forced to close temporarily because of shortage of gas, among them several in this city. General Manager Carl of the Pressed Glassware combine, who has been in Indiana during the past week inspecting plants, says that without an exception all are short of gas. The United States Steel Corporation has found it necessary to put coal burners under its boilers in all of the tin plate plants in the field, including the big Elwood concern and the one in Anderson, which are located in the center of the gas belt. Almost all other manufacturers are doing the same thing.

The Hemingray Glass Company began work this week on a great producer plant to supply its big factories with fuel gas. The steel mills at Franktown are shut down until coal burners can be put in, and the big wire nail plant at Anderson and the Kelly ax works at Alexandria are drawing on coal.

Coal Yards Springing Up.

The Elwood Commercial club held a special meeting Monday to arrange to get coal delivered to the city's plants at the minimum of cost.

In all of the gas belt cities coal and wood yards are springing up. Many grown young men and women are splitting kindling wood for the first time and are heaving coal to indoor bins. Yesterday at Marion a suit for divorce was filed, the husband applicant alleging as his grounds for separation that his wife made him get up and build the fires.

No manufacturing companies have yet shown signs of removing their plants, and especially is there no tendency to take them back to the Pittsburgh district, as was predicted they would when they left to come west.

The Pittsburgh Plate Glass Company, the United States Steel Corporation and other manufacturing companies are developing oil territory, and they hold several million dollars' worth of valuable oil land leases. They are, therefore, not particularly interested in the fight that is being made to save gas.

Scene Showing How Wood Has Taken the Place of Natural Gas at Muncie, Ind.

AMERICANS PLANNED TO IMITATE JAMESON IN YUKON DISTRICT

$250,000 Was Pledged to Aid in Establishing a Republic in the Northwest.

GRIEVANCES OF MINERS

(SPECIAL TELEGRAM TO THE GAZETTE.)

VANCOUVER, B. C., Nov. 20.—Further details of the miners' conspiracy to rebel against the authority of the Canadian government and establish a republic in the Yukon mining region have been received.

It seems that some hare-brained Americans drew up plans for forcibly deposing the government and police in the Yukon, somewhat similar to the historical Jameson raid in the Transvaal. Major Woods of the mounted police discovered the scheme and took prompt steps to suppress it. American officials at Skagway co-operating. The discovery of the scheme is supposed to have nipped it in the bud.

The Yukon police force consists of about 250 men who are provided with Lee-Enfields. When the scheme was first discovered Maxim and Colt guns were mounted at White Horse, which was the first place to be attacked. Major Snyder in charge of the police there also received reinforcements, and patrols were kept on duty night and day.

It is said the scheme originated in Seattle, and $250,000 was available to aid the venture. The information has been obtained from ex-police officers of the Yukon force, and members of the gambling fraternity who have come to the coast cities for the winter, and is guardedly confirmed by the officials who have just come down from the north.

FAIRMONT, W. VA., Nov. 20.—Ex-Mayor O. C. Bradley of Mannington, who has just returned from Nome City, Alaska, corroborates the reports from the gold fields in regard to the organization of a republic in the British possessions in the Klondike.

He says it has been under contemplation for some time and is instigated by the schemes of officers of the law, who have illegally cheated prospecters out of claims. He accuses United States authorities of the same schemes and says hundreds of miners have been deprived of their rightful properties by injunctions secured by United States marshals on an imaginary technicality. Because the miners have not sufficient money to appeal the case to high courts, the claims pass into the hands of the marshals, who have profited immensely by it.

SEVEN TRAINMEN KILLED IN WRECK ON SANTA FE.

Passengers Protected from Injury by Pullman Cars Which Composed the Trains.

LOS ANGELES, CAL., Nov. 20.—A wreck occurred on the Santa Fe railroad near Francesia, Ariz., early today. Seven trainmen were killed, three passengers and 14 trainmen injured. Limited trains, east and west-bound, crashed together while running at full speed. The three engines were crushed and blown to pieces by an explosion which followed the collision. Both trains were made up of vestibule cars of the heaviest kind, and while they stood the terrific shock well and protected the passengers to a great extent, several cars took fire and were burned up. The dining cars, one on each train, one Pullman and two composite cars were destroyed.

The collision is said to have been due to a disregard of orders by the crew of the west-bound train. The east-bound train had orders to take the siding at Franconia and await the passing of the west-bound flyer, which was running two hours late and trying to make up time. The west-bound train failed to reach the siding, and as the west-bound train did not wait for it the two trains came together.

At Santa Fe headquarters at Los Angeles it was stated that the blame had not been definitely fixed, but from all appearances it rests with the crew of the west-bound train. Had they stopped at Franconia and allowed the east-bound train to reach there, as the orders are said to have read, there would have been no wreck.

PHILADELPHIA POSITIONS.

Quay and Penrose See the President Probably on That Subject.

WASHINGTON, D. C., Nov. 20.—(Special.)—Senators Quay and Penrose called at the White House this afternoon and had a conference of about 20 minutes with President Roosevelt on policies to be pursued and the distribution of patronage. It was the first visit of the Pennsylvania senators together, and they were cordially greeted by the chief executive.

Owing to engagements previously made, the president could not grant his callers sufficient time, and it was decided that they should call again. After the conference both senators declined to divulge what took place, but said the interview was satisfactory to them.

It is more than probable that the subject of changes in the Philadelphia postoffice and internal revenue collectorship was discussed, as the terms of Postmaster Hicks and Collector McClain will soon expire. The senators believe that if they recommend good men for the positions the appointments will follow.

New Tin Plate Scale Discussed.

NEW YORK, Nov. 20.—(Special.)—District managers of the American Tin Plate Company met here today, but the question of a wage settlement with the tin workers of the Amalgamated association was not discussed. It was reported that the conference had as its object the signing of a new scale.

COLON, Nov. 20.—This city, the ch town on the Isthmus of Panama and the Caribbean terminus of the isthmi railroad, is in the hands of the Colombi revolutionists. They made an unexpect dash into the town last night, the g ernment forces made but a feeble resi ance, and after some fighting, the l eral Invaders captured all the public fices. Twelve men were killed, some wounded and Prefect Guardia was ma prisoner.

Commander McCrea landed a force marines of the gunboat Machias to pr tect the property of the railroad co pany.

On receipt of the news that Gen. Alf the military commander of the isthmu had started to attack the Liberals Chorrera, near Panama, the Liberals d tached 160 men under Gen. Patino to a tack Colon. This force embarked on boa a train bound from Panama to Colon ye terday evening at Las Cascadas stati previously cutting off telegraphic comm nication across the isthmus. On arrivi at the outskirts of Colon, where the gov ernment usually maintained a nom guard, the generals left their train, and the initial skirmish, which began no afterward, Gen. Patino was killed.

Town Completely Surprised.

The command of the Liberals then d volved on Colonel Frederic Barrera, a they continued their march on Colon, a riving there a few minutes after t train, thus surprising the whole tow The government troops at Colon were o numbered by the Liberals.

Fighting immediately began at the ba racks, which were soon taken. The Senor Lasso, a judge of the criminal co was killed, and Senor Paredes, the dis trict representative of the department the interior, was mortally wounde Fighting subsequently occurred at t town hall, which was also taken by t Liberals. Among the prisoners captur there were Prefect Guardia and the co mandant of police. Senor Paredes, t mayor, managed to reach the garbo General Pinzon, which sailed last ni for a destination unknown, probab Carthagena.

The whole affair was over in less th three hours.

Communication with Panama was r stored today. This revealed that no fig ing had occurred there; that everythi was quiet, and that the city was still the hands of the government.

Awaiting News From Chorrera.

The issue now depends on the resu of the fighting, which is doubtless now progress at Chorrera, news of which anxiously awaited here. The Liberals a busy raising reinforcements locally. Th are reported to have several hundred ma at different railroad stations betwe here and Panama.

The United States gunboat Machi landed a detachment of marines here th morning. They are now guarding th railroad station and other property o the railroad.

At a conference between Commande McCrea of the Machias, United Stat Consul Malmors, Col. Shaler, superinten ent of the Panama railroad, and C Barrera, commander of the Liberals, t revolutionist leader, was informed th the marines had been landed from th Machias. Barrera promised to guard th city with his troops.

Trains will be crossing the isthmus a usual tomorrow. There has been no st struction of free transit so far.

The government troops at Panama numbering about 500 men, are construct ing earthworks and barricades at the ra road bridge going into the city, in anti ipation of an early Liberal attack.

Liberals Control the Railroad.

The Liberals claim to have at least 7 men in possession of the different rai road stations on the line between Co and Panama. These men would, doub less, do their utmost to prevent the tran portation of government troops to th point.

Since the renewal of activities by th Colombian Liberals some five or s months ago on the isthmus, an attac upon Panama has been expected at an time. After a very stubborn and bloo battle in July of last year, the Liberal almost succeeded in capturing the city and they have recently frequent threatened to renew the attempt.

WASHINGTON, D. C., Nov. 20.—On r ceipt of the first news this morning of the capture of Colon by the revolutionist Assistant Secretary of State Hill called General Chief Adjutant General Gudger a direction t notify all parties who are engaged i molesting or interfering with free transi across the isthmus that such interfer ence must cease. He was also directe to consult freely with Capt. Perry, th commander of the United States battle ship Iowa, now lying at Panama. The Capt. Perry was cabled by Secretar Long to land marines if necessary fo the protection of the free transit acro the isthmus.

Meanwhile news came that Commande McCrea of the gunboat Machias, whic is lying at Colon, had anticipated the instruction from the navy department by landing a force of bluejackets at Colo and occupying the rail station.

FIRES READY FOR A MURDERER.

Angry Citizens Prepare to Receive the Slayer of the Two Deputy Marshals.

OXFORD, MISS., Nov. 20.—Will Mathis, who is charged with the murder of two deputy marshals, Montgomery by name, surrendered to a justice of the peace and two citizens at Dallas, near here. Mathis had been closely pursued by a large posse with bloodhounds, and realizing that his capture was certain, the fugitive voluntarily gave himself up and asked for protection.

When the news reached Oxford bonfires were built and many threats of summary vengeance against the alleged murderer were heard on all sides. The local officers announce that they will protect the prisoner at all hazards.

Mathis had been arrested by the Montgomerys. He persuaded them to remain all night at his house, and after they had retired he shot them and fired the building.

ELECTION RETURNS IN.

Complete State Count on Recent Contest Tabulated at Harrisburg Yesterday.

HARRISBURG, PA., Nov. 20.—The official returns of the recent election for state treasurer and judge of the supreme court were tabulated today at the state department. The count was delayed by the failure of the Lycoming county authorities to forward their returns until this morning. The vote shows that the Union party polled enough votes to get a column on the ticket next year without the formality of taking out nomination papers. The vote shows also that the Peoples party in this state has almost gone out of existence. The following is the official vote:

State treasurer—Harris, R., 423,498; Coray, D., 291,955; Porter, Pro., 18,044; McConnell, Soc.-Lab., 2,584; Watkins, Peoples, 530; Coray, Union, 93,418; Coray, Municipal league, 4,202; Harris, Public Opinion, 11,542; Barnes, Public Ownership, 2,674.

Judge supreme court—Potter, R., 420,560; Yerkes, D., 292,410; Monderau, Pro., 17,671; Lowry, Soc.-Lab., 2,758; Monderau, Peoples, 291; Yerkes, Union, 93,028; Yerkes, Municipal league, 4,451; Potter, Public Opinion, 11,005; Heydrick, Public Ownership, 2,740.

Harris' plurality, 45,470; Potter's plurality, 42,313. Constitutional amendments —No. 1, yes, 214,798; no, 45,601. No. 2, yes, 194,053; no, 41,203. No. 3, yes, 180,621; no, 48,634.

BONINE JURY COMPLETE.

Trial of Alleged Murderess Will Practically Begin Today.

WASHINGTON, D. C., Nov. 20.—Shortly after 3 o'clock today the jury which is to try Mrs. Ida Bonine on the charge of murdering James Seymour Ayres, Jr., the young census clerk, was completed and the court adjourned until 10 o'clock tomorrow, when a presentation of the case on behalf of the government will be made by the district attorney.

It is expected that the taking of testimony will begin during the forenoon session tomorrow.

HIGHLAND WINS THE CHAMPIONSHIP

By Defeating Allegheny Country Club for the Second Time, Season's Honors Come to the Local Club.

Geo. A. Ormiston.

The Highland Golf club gained the undisputed championship of the Western Pennsylvania Golf league yesterday afternoon by defeating Allegheny Country club, champions of last season, by the most decisive score of 36 to 1. While Highland had the advantage of the home course, which is unfamiliar to the Allegheny players, still the size of the score; the defeating of Allegheny on its own course in the spring by 19 to 6; and the winning of the last match of last season by Highland, leaves no question as to which is the leading local golfing organization this season. Allegheny could offer a stronger team than yesterday's and could prepare more carefully. Though a hard and tricky course, few of the Alleghenians had seen it this year, and Byers and Rea had never been over it.

Ormiston played the best game, with a medal score of 73, while C. B. Fownes, but 19 years old, and by far the youngest in the match, played excellent golf, and defeated Rea by 12 holes, with a medal score of 75. W. C. Fownes, Jr., was 1 up at the conclusion of the first round of nine holes, but struck a bad putting streak. Byers deserves full credit for winning against him, on a strange course. The score in detail:

Highland—36.		Allegheny—1.	
G. A. Ormiston	9	B. S. Horne	0
H. C. Fownes	4	C. D. Thompson	0
W. C. Fownes	6	John Moorhead, Jr.	0
W. C. Fownes, Jr.	0	E. M. Byers	1
Harvey Penn	5	C. O. McClintock	0

GOV. NASH FAVORS THE PENNSYLVANIA METHOD.

Would Abolish the State Tax on Real Estate and Place Burden Upon Corporations.

COLUMBUS, O., Nov. 20.—(Special.)—Gov. Nash attended the meeting of the State Association of County Auditors today and outlined his policy on taxation, to be presented in his annual message to the legislature. This will be one of the most important problems before the incoming assembly.

The governor desires especially to abolish the state levy upon real and personal property. This, he said, would obviate the necessity for a state board of equalization, whose work is always unsatisfactory and generally criticised, and will permit the assessment of taxes by the officers of each county, municipality and township.

If these things are to be done by the legislature, he said, the expenses of the state will have to be reduced to the lowest minimum consistent with the obligations imposed by the statutes and the constitution, and the sources of revenue must be enlarged by the extension of the present excise tax upon corporations. He does not expect the innovation to be thoroughly established for several years.

Secretary of State Laylin, who followed the governor, urged that a tax of one-twentieth of 1 per cent be levied upon the capital stock of all Ohio corporations. There are more than 40,000 of them, and the revenues from this source would be immense.

MANY OFFICERS ELECTED.

National Reform Association Holds an Important Business Session and Honors Pittsburgh Men.

The National Reform association held an important business session yesterday. Officers and the executive committee for the ensuing year were elected. The regular conference sessions were held in the Second Presbyterian church, Penn avenue and Seventh street, and were well attended. The election resulted as follows:

President, Dr. R. J. Scovel of Wooster, O.; first vice president, the Rt. Rev. F. D. Huntingdon of Syracuse, N. Y.; corresponding secretary, Dr. T. P. Stevenson of Philadelphia; recording secretary, Dr. R. C. Wylie of Wilkinsburg; treasurer, the Rev. J. S. McKee of Butler, Pa.; executive committee, Dr. John McNaugher, Allegheny; the Rev. W. B. Smiley, D. D., Canonsburg; the Rev. Dr. S. F. Scovel, Wooster, O.; the Rev. Dr. R. C. Wylie, Wilkinsburg; the Rev. Dr. J. S. McKee, Butler, Pa.; the Rev. Dr. H. H. George, Allegheny; Messrs. John A. Dodds and R. M. Downie and the Rev. R. W. Kidd, Beaver Falls, Pa.; the Rev. N. M. Glasgow, Wellsville, O.; the Rev. Dr. David McAllister, Allegheny; Dr. D. S. Littell, Dr. D. C. Martin, Dr. J. T. McCrory, Dr. J. H. Prugh, the Rev. Thomas Watters and Messrs. D. Chestnut and J. W. Houston, Pittsburgh; Dr. J. P. Stevenson, Philadelphia; the Rev. W. I. Wishart, Dr. J. W. Sproull, the Rev. J. R. J. Milligan, Dr. J. S. Milligan, Dr. S. Collins and the Rev. W. H. McMasters, Allegheny; the Rev. J. S. Martin, New Castle, Pa.; Dr. J. N. McConkey, Grove City, Pa.; A. B. Copeland, Parnassus, Pa.; Thomas B. Greegen, New York; the Hon. John D. Gill, Greensburg, Pa.; the Rev. Wm. Wishart, Allegheny; the Rev. M. L. Weaver, Johnstown, Pa.; John T. Barr, Canonsburg, Pa.; the Rev. S. J. Turtle, Allegheny; J. J. Porter, Allegheny; H. J. Heinz, Pittsburgh; C. N. Hanna, Allegheny; the Rev. W. H. Leslie, Elwood City, Pa.; W. C. Brown, East End, Pittsburgh; the Revs. F. M. Wilson and J. M. Acheson, Parnassus, Pa.; the Rev. J. S. Thompson and James Scott, Beaver Falls, Pa.; the Rev. J. K. McCluskin, East End, Pittsburgh.

At the conference session the Rev. H. C. Swearingen of Allegheny made an address on "The Duty and Necessity of Christian Education in Public Schools." Dr. Scovel spoke on "Practical Methods of Christian Instruction in the Schools." The Rev. Edwin R. Worrell of Butler gave a general talk on the subjects discussed by the other speakers. The session closed with the adoption of a resolution to the effect that in so far as this is a Christian nation, the public schools ought to correspond to the Christianity of the nation and her institutions, and prepare the children for the Christian duties of citizenship, and that the Christian element of the public school education ought to have a legal basis in the fundamental laws of the land.

At the morning session the Rev. Dr. J. S. McKee spoke on "The Rights of God" and the Rev. J. H. Leeper on "The Rights of Man on the Sabbath." The Rev. Dr. Robert M. Russell made an earnest address on "The Sabbath." The Rev. Dr. W. J. Coleman spoke on "The Oath, a Bond of Society."

THE GLASS INTERESTS REACH AN AGREEMENT.

Prices Lowered, Discounts Slightly Increased and Jobbers Limited in Their Orders.

CHICAGO, Nov. 20.—(Special.)—After a conference lasting three days all of the contending interests in the glass trade came to an agreement which fixed the selling price of window glass at 28 2-3 cents below that prevailing previous to October 18 last. The new figures are a straight 89 per cent discount from the list on all as against 88 per cent for the first three brackets and 85 per cent for the second three a month ago. All of the sales made since October 18 will be rebated down to present figures.

The manufacturers allow only 500 boxes to the jobbers this year, as against 750 boxes allotted to them at the opening of the season last year. This small allotment has caused some dissatisfaction on the part of the jobbers, as they are sold down low and see a big building season ahead of them. The jobbers regard it as a foregone conclusion that the price will be higher next spring than it is now, and they would like to get in at low figures now and sell out at the advance later, as they did a year ago.

After the adjournment of the meeting the outside manufacturers of glass came together and took the initial steps to organize into a compact body like the American Company, the Independent and the Federation of Co-operative Workers. This makes a "big four" for the glass jobbers to deal with in the near future, instead of the big three, as at present.

Fred H. Fox has been appointed general sales agent of the company, with headquarters in Chicago.

The meeting of the sash, door and blind manufacturers will be held tomorrow and the list prices for the year will be based on the figures made by the window glass makers today.

Schwab Visits Steel Mills.

COATESVILLE, PA., Nov. 20.—(Special.)—Charles M. Schwab, president of the United States Steel Corporation, visited some of the steel works of this city today. It is rumored that the $25,000,000 steel plate combination which has taken in all of the large mills here is to be merged into the big steel trust of which Mr. Schwab is the official head. The owners of the mills refuse to give any information concerning the matter.

PROTECTION HAS THE PREFERENCE

Reciprocity to Be Relegated to a Bureau in Proposed New Department.

MANUFACTURERS ARRIVE AT A COMPROMISE

They Will Press These Views Upon Congress and the President. Will Ask for a New Cabinet Member to Watch Business Interests.

(SPECIAL TELEGRAM TO THE GAZETTE.) WASHINGTON, D. C., Nov. 20.—Reciprocity that will hurt no home interest, the maintenance of the principle of protection and a reciprocity commission to investigate the whole subject is the declaration of the manufacturers' convention now sitting in this city. The fruit of the national convention of manufacturers being held in this city this week was the passage of these resolutions:

First—That this government recommends to congress the maintenance of the principle of protection for the home market, and to open by reciprocity opportunities for increased foreign trade by special modifications of the tariff in special cases, but only where it can be done without injury to any of our home interests of manufacturing, commerce or farming.

Second—That in order to ascertain the influence of any proposed treaty on our home interests this convention recommends to congress the establishment of a reciprocity commission, which shall be charged with the duty of investigating the condition of any industry and reporting the same to the executive and to congress, for guidance in negotiating reciprocal trade agreements.

These resolutions are taken as a solution of a very dangerous situation. Perfect order existed when Chairman Tompkins of the resolutions committee arose to make his report. The acrimonious debate and dissensions which marked the proceedings yesterday and this morning emphasized the necessity of prompt and heroic action.

Necessity of Compromise.

The resolutions committee held prolonged meetings and called upon the leaders of the factions for advice. A compromise had to be reached. The country, especially congress, should be impressed. It has been frequently asserted that the manufacturers could not agree upon a reciprocity policy, and the debates during the convention warranted the assertion.

After prolonged argument it was decided that division in the convention and failure to adopt resolutions would be injurious to the interests represented, by tempting politicians in congress to experiment in the hope of solving a problem which so deeply involves the prosperity of the country and the interests of the manufacturers.

Much midnight oil was burned between the adjournment of the session last night and the meeting this morning. During the first session today there were outbreaks, indications being that a compromise would be reached. After luncheon, however, there was a marked change. Bitter friction was displaced and harmony prevailed. Denunciation gave way to amity, and all the delegates were in a happy mood when Chairman Tompkins was called to the rostrum. He was welcomed by prolonged applause.

Various Propositions Read.

Henry R. Little offered a resolution "that it is for the interest of all the people of the United States that a treaty of reciprocity be made with the Dominion of Canada." There was some applause in response to this sentiment, but when Mr. Little proposed a free exchange of commodities between the two countries he was greeted with sarcastic laughter. This was going too far.

Various other resolutions proposing all sorts of things were read. Then the reciprocity resolution of the committee was read. The convention abandoned decorum and the uproar continued several minutes. The resolution seemed satisfactory to every one. Not one voice was raised in opposition. In fact, so anxious were some of the delegates to secure its adoption that they continued to cry "Question." The resolution was adopted by a rising vote. When the yeas were on their feet a fair minority of the convention remained seated. When the noes were called but three delegates arose. The result was cheered vociferously.

Then the second resolution reported by the committee was read as follows:

First—This convention recommends to and requests of congress that a new department be created, to be called the department of commerce and industries, the head of which shall be a member of the president's cabinet.

Second—That a reciprocity commission be created as a bureau of this new department.

This was adopted unanimously without discussion.

Chairman Search was instructed by the convention to present the reciprocity resolution to the finance committee of the senate and the ways and means committee of the house, and that concerning the department of commerce and industry to the president.

An attempt was made to have the vote upon the reciprocity resolution made unanimous. One of the three dissenters arose, explained that he objected to the methods employed in forcing the resolution through, and under the circumstances would withdraw his vote. The other two remained obstinate, one being a free trader.

A representative committee today submitted to President Roosevelt the resolutions adopted by the convention. The president received them cordially. He told them in general terms that he had given considerable attention to the subject, and that he hoped his attitude would be satisfactory to them, but he did not particularize.

NORDICA AND HERBERT.

Pittsburgh Orchestra and Famous Soprano Give a Concert at Cleveland.

CLEVELAND, O., Nov. 20.—The Pittsburgh orchestra, Victor Herbert, conductor, and Mme. Nordica, soloist, gave a concert in this city tonight in the Grays armory in the presence of 3,000 people. The affair was the musical and social event of the season, both instrumentalists and soloist receiving enthusiastic applause. The orchestral program consisted of four selections from the compositions of Lassen, Erkel, Beethoven and Wagner. Mme. Nordica received an ovation on her first appearance. Her songs were selections from the opera "Hunyadi Laszlo," by Erkel, and the part of Isolde, from "Tristan and Isolde," by Wagner.

Nordica's final appearance was enlarged to three numbers, two of which were encores graciously granted by the famous soprano. It was the largest crowd of the season to attend a musical event.

DINING CARS RAIDED.

Nebraska Game Warden Seizes Quail Which He Asserts Were Illegally Killed.

OMAHA, NEB., Nov. 20.—The Rock Island Railway Company is charged with illegally having in its possession quail which are served in dining cars. The game warden made a search of the ice boxes on a Rock Island dining car and found a quantity of the birds, which he seized.

The game warden asserts the railroads are using quail killed in this state in violation of the statutes. He says this is the first seizure in a campaign which he will inaugurate against the different roads entering this city.

STATIONS FULL OF IMMIGRANTS

SPECIAL TRAINS BRING THEM IN BY THE HUNDRED.

The Baltimore & Ohio Alone Carried 1,500 in Last Night—Busy Scenes About the Platforms When the Passengers Disembarked—Big Party of Italians Go Home for the Winter.

This is the fitting season for foreigners. The Baltimore & Ohio station was crowded last night and early this morning with Huns, Italians, Slavs, Austrians and Poles. The Union station saw the departure of over 100 Italians for their winter homes in their sunny fatherland.

There were 570 immigrants on a special train from Philadelphia which arrived at the Baltimore & Ohio last night. About 200 of them stopped here, while the remainder continued west.

The railroad authorities said that those to arrive on the early trains today would swell the number to nearly 500. There was a lively time at the station while the hundreds of foreigners were huddled together on the platform, the children running wild, while the railroad men had trouble in keeping the older ones out of the hands of the sharpers that were anxious to get at the flock.

The Italians leaving the Union station, the first batch on the 7:10 for New York, were but the first of the winter hegira. Many of them can live the season out at home for $15 and thus, even with transportation charges, save money. This class of workers seldom bring their families here on their business trips.

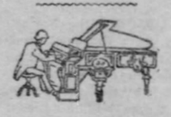
HAMILTON'S


Everybody His Own Piano Player
Such an idea would have excited ridicule some years ago. But now the fact that everybody can produce his own piano music has increased interest in the piano everywhere.
The Angelus is to thank for this.
The full name of this marvelous invention is the Angelus Orchestral Piano Player. It not only plays any piano, but it has an attachment which reproduces all those exquisite effects which heretofore were possible only where many string instruments were involved.
The Angelus in no way interferes with the playing of the piano in the ordinary way. It is a simple, cabinet-like arrangement which is placed in front of the piano. Perforated rolls of music are set in motion by the person operating—he merely working the pedals. The keys of the piano respond to the accurate touch of the "fingers" of the Angelus—and there you are.
You'll never hear the quintessence of music until you hear it produced by the Angelus. No other instrument in existence is capable of producing such music.

THE APOLLO
Is The King of Piano Players.
The APOLLO astonishes professional musicians with its wonderful possibilities.
CLARENCE EDDY, the world's greatest organist, says:
Boston, Mass., April 25th, 1901.
The Apollo Piano Player commands not only my astonishment, but my admiration. Here is a self-playing attachment which seems almost human, inasmuch as every degree of touch is easily attainable, while for speed, clearness, brilliancy and correctness of execution it is a marvel.

Christmas Suggestions From the Fifth Floor Furniture Department.
At Christmas times all minds earnestly turn to thoughts of gifts. Suggestions are rife. There is no better place to find the gift practical than right in our Furniture department. Gift Furniture stares at you the moment you step off the elevator. Here is a partial list without prices—merely suggestive—
BACHELORS' CHIFFONIERS OF MAHOGANY. NEW STYLE WITH DRAWERS. TWO UPPER DRAWERS ARE ARRANGED WITH DROP FRONTS AND PLACES FOR SHIRTS, NECKTIES, ETC., IN EACH DRAWER.
THREE-PIECE DEN SUITES — WEATHERED OAK COVERED WITH TAPESTRY. SETTEE, ARM-CHAIR AND ROCKER.
FINE CARD TABLES OF MAHOGANY, INLAID, REVOLVING TOPS WITH ONE SIDE COVERED WITH GREEN FELT; RECEPTACLES FOR CARDS.
ARMCHAIRS OF WEATHERED OAK, UPHOLSTERED IN LEATHER. PAPER POCKETS ON SIDES.
VERNIS MARTIN PARLOR TABLES. NEWEST SUBJECTS.
BENTWOOD ROCKING LOUNGES — A SPLENDID THING FOR NEGLIGENT COMFORT.
WRITING DESKS IN MAHOGANY AND OAK. EVERY NEW DESIGN THAT HAS BEEN DEVISED.
MUSIC CABINETS OF PLAIN MAHOGANY AND INLAID MAHOGANY.
MEDICINE CABINETS OF OAK, MAHOGANY AND INLAID MAHOGANY.
PIPE RACKS—A HUNDRED DIFFERENT STYLES.
BURNT LEATHER EFFECTS — SUCH AS PILLOW COVERS, STAND MATS, LIBRARY MATS AND BANNERS.
TABOURETTES OF EVERY DESCRIPTION—MOSTLY IN BURNT WOOD, NOW THE RAGE.
SMOKERS' TABLES OF BURNT WOODS.
ROCKERS OF EVERY DESCRIPTION AND ALL THE USABLE WOODS.
SEWING TABLES OF SOLID MAHOGANY AND INLAID MAHOGANY.
The above briefly hints of the small furniture that is ready for gift choosing. Any piece, or pieces, you select will be put away carefully and delivered promptly when you give us the word.

Black Broadcloths—Regular $2.50 a Yd.—Here Today $1.50 a Yd.
We say regularly $2.50 a yard. This is about the most irregular thing we ever came across—being able to sell them for $1.50 a yard.
Briefly, an importer came along and had ten pieces—400 yards—and offered them for a price.
We didn't want them. So he began to drop, drop, till we had to take them—it was too good to pass.
Four hundred yards, you know, won't last long—especially when there is a dollar to be saved on each yard.

Tucked Challis.
First appearance in Pittsburg.
The cloth imported, then tucked in this country.
Beautiful. You'll like it. Can't help it.
Pink, red, silver gray, leaf green, lavender, light blue, old rose, castor, brown and black.
For every style of house wear.
65c a yard.

Opera Glasses and Cameras.
We believe no other store in Pittsburg imports Lemaire's Opera Glasses direct. That being the case, it naturally follows our prices are much lower. Anyhow, we sell Opera Glasses just as we do other goods—judicious marking to the cost line for quick selling.
Our Christmas line of Lemaire glasses is ready. Such mountings as mother of pearl in white, rose, amber and smoked effects, and Turkey morocco leather.
Leather mounted, $3.50 to $6.
Pearl mounted, without handle, $6.50 to $9.
Pearl mounted, with handle, $10, $11, $12.
Cameras have been moved to a more convenient section of the main floor—directly to the rear of main aisle. We expect to sell more than ever this Christmas.
The new Eastman folding Pocket Kodak No. 3 is a little jewel. $14.
The new No. 2 Brownie at $2 is also winning friends.

Advance Importation—
4,000 Yards Japanese Wash Silks.
So very admirable for holiday gifts.
More beautiful than ever in their effulgent color combination intermingled with white raised cords of various sizes, forming irregular stripes.
Your recipient will repeat lovely over and over again.
35c, 45c, 50c a yard.
This silk department is one of the wide-awake departments of the store. Always on the lookout for the best for less prices.

Solid Silver Toilet Ware.
The pretty and serviceable butler finish—brand new patterns that in themselves are positive works of art. Thirty to forty different pieces, all to match if you like. Heavy durable qualities that will last a lifetime.

Hair Brushes	$2.25	to $8.50	each
Cloth Brushes	2.00	to 5.50	each

Contagious Diseases—Four cases of typhoid fever, two of scarlet fever and two of diphtheria were reported to the bureau of health yesterday.

Coulson's Retirement—The official record of Superintendent of Police Solomon Coulson is now completed, and he will be retired on November 30 with a pension of $1,500 a year.

Engineers Will Meet—The Association of Stationary Engineers will meet this evening in its hall at 104 Grant street. A paper will be read by Charles Cullick on "The Indicator." All engineers are invited.

Conductors Held for Court—A. J. Borges and G. C. Blake, the Birmingham street car conductors arrested last Saturday on the charge of appropriating money collected as fares, have each been held in $500 bail for trial in court.

Independent Light Plant—Workmen are now busily engaged at the Ninth street, Braddock, plant of the American Steel and Wire Company, installing a new independent light plant. It will have a capacity of 800 incandescent lights and 100 arc lights.

Accident May Be Fatal—Aguila Casco, aged 36 years, employed at the Pittsburgh locomotive works in Allegheny, was knocked down yesterday by a traction car while crossing Beaver avenue. He is in the Allegheny General hospital in a critical condition.

Becomes Superintendent—William Bennett, who for years has been business agent and finacial secretary for the Pittsburgh local of the Patternmakers' league, has resigned his position, to become superintendent of the steel plant of Gen. Jacob S. Coxey, at Massillon, O.

Elocution Contest—The elocution contest to be held in the Presbyterian church of West Elizabeth Tuesday evening promises to surpass all its predecessors. Twelve contestants will compete for two gold medals; one to be awarded by the judges and the other by the audience.

Will Build Plant Here—The Modern Typewriter Company, chartered in New York with $1,000,000 capital, will erect works in this city. Thomas and J. G. MacConnell, the Pittsburgh real estate dealers, and William H. Hays of the Iron City tool works are directors of the company.

Child's Peculiar Death—The 4-year old child of a family named Seifert, residing at 209 Montgomery avenue, east, Allegheny, died under peculiar circumstances. It is the belief of Dr. L. C. Miller, who was called to attend the child a short time before its death, that it died without medical attention.

Valuable Pair of Trousers—When Adam August Glinz, proprietor of a saloon in Sixth avenue, Homestead, awoke yesterday morning he discovered that his trousers, which he had left on a chair near his bed, had disappeared, with $139 25 which was in the pocket. The thief entered by a rear window.

Horses Were at Large—Agent James Bell of the Humane society yesterday charged D. Douglass and Al Barton of Camelia street with abandoning two horses. It is alleged the horses have been roaming over the old Schenley estate at Fifty-first street for two weeks. They will have a hearing before Alderman C. F. Oyer today.

Wrapped in Molten Wire—Ernest A. Hegland, a laborer, died at the South Side hospital last night from injuries received in the Fifteenth street wire mills, South Side, early yesterday morning. A large bolt of molten wire wound about his legs and arms and burned him to the bone before he could be relieved. He was 31 years old and a foreigner.

In Honor of Dead Member—The social session of Pittsburgh Aerie No. 76, F. O. E., arranged for tonight, has been abandoned owing to the death of T. J. McTighe, a member of the lodge. Instead of the social session a meeting will be held at the lodge rooms, Fifth avenue and Smithfield street, to take action on the death of Mr. McTighe.

Identified by Brother—Jacob Matz was identified at the morgue last evening by his brother, Charles Matz of 99 South Eleventh street. The former is the man who took sick in a restaurant at 516 Grant street on Tuesday evening and died a few minutes later on the sidewalk. The coroner will investigate the case to discover the cause of death.

Louisville Pastor Declines—Elder George Gowen, pastor of the Broadway Christian church of Louisville, Ky., has declined the pastorate of the First Christian church of Allegheny, and this declination has been given to the Allegheny church. At present the official board is in communication with another minister, but refuses to divulge his name.

Vessel Now in Service—The Paraguay of Pittsburgh, the first steamer built for the Sun Company of Pittsburgh to ply in the oil traffic from Texas along the southern and eastern coast, has been completed by the American Ship building Company at Lorain, O., and is now on its way to the Atlantic. J. N. Pew of this city is president of the Sun Company, for which a duplicate vessel is being built.

Firemen Will Hold Bazar—The four Homestead fire companies, Relief, Independent, Volunteer and the Second Ward companies, held a joint meeting last evening in the rooms of the Independent company, at which arrangements were made to hold a big firemen's bazar in the Homestead opera house during all of holiday week. Chief C. K. Bryce was elected chairman of the committee on arrangements.

Ground to Pieces—D. F. Black, lieutenant of the coal and iron police connected with the Carnegie Steel Company, was struck by the Brownsville express on the Pittsburgh, Virginia & Charleston railroad yesterday morning. His body was hurled over the tracks of the Union railroad, and an engine of this road, coming in the opposite direction, caught the unfortunate man and ground him to pieces.

The Closing Meeting—The final session of the annual meeting of the woman's auxiliary to the board of missions of the Protestant Episcopal church was held yesterday in the chapel of Trinity church. The session was devoted to the hearing of addresses on mission work. Bishop Cortlandt Whitehead presided, and addresses were made by Bishop Peter Rowe of Alaska and Bishop L. L. Kinsolving of Brazil.

Check Was Worthless—Samuel Markowitz, a Homestead merchant, yesterday appeared before Justice of the Peace O. W. Giles of Homestead and entered a charge of fraud against William Rosenthall of Duquesne. He stated that the defendant had given him a check for $32 00 in payment of a bill and that there were no funds at the First National Bank of Duquesne to meet it. A hearing will be held in the case tonight.

Metal Thieves at Work—Early yesterday morning thieves broke into the printing office of I. K. Dillon on Swissvale avenue, Swissvale, and carried away all the type in the office. They also entered a new house under construction which belonged to the Swissvale Improvement Company and carried away all the lead pipe fittings in the building. The Monongahela Street Railway Company reported to the police of Swissvale that thieves had stolen copper wire belonging to the company in and near Swissvale.

Two Injured in Collision—A buggy containing James Beech, a wholesale liquor dealer of East Pittsburgh, and William Box of Braddock, was struck by a car on the United Traction lines at East Pittsburgh last evening and the occupants painfully injured. Both men were thrown out and Box was dragged a considerable distance and sustained broken ribs and a number of cuts. Beach was cut about the head and face.

Wages Will Be Equalized—President L. R. Thomas of the Patternmakers' league yesterday received advices through President Samuel Gompers of the American Federation of Labor that Secretary John D. Long of the navy department has agreed to have the wages of patternmakers and other craftsmen in the Washington navy yard advanced to equal those of other navy yards. President Thomas' purposed conference with navy officials on this question will be obviated.

Rearrested in England—John Morgan and Joseph Hughes, English thieves, who are to be brought back to this country for trial, were arrested by Detective Thomas A. McQuaide during the funeral pageant of President McKinley in Washington, D. C. The pair had robbed Mrs. Harriet Lee of Atlantic City of a purse containing several dollars and valuable trinkets. Not many days after their arrest an Englishwoman secured their release on a bond furnished by a prominent international security company. The trio then escaped to England, but have since been arrested by a detective for the security company.

A QUICK RESUMPTION.

New Buildings Rising at Burned-Up Dilworth-Porter Plant—Mills Will Start in Two Weeks.

Temporary buildings are being erected, and it is expected that in about two weeks most of the old force of Dilworth, Porter & Co., Limited, South Side, will be employed at the plant. Much of the mill apparatus was not damaged by the fire which recently swept over the property, and many of the 700 men thrown idle have since been employed in clearing the wreckage and other work. The more skilled men will be put to work when the mill resumption takes place.

It was stated authoritatively by representatives of the company yesterday that in view of these conditions a move to solicit aid for the unemployed men could not be authorized. It was stated that most of the unskilled men are now being employed, and that in two weeks most of the tonnage and skilled men will be back in the works. Charles Schmidt & Co., the carpenter contractors of the South Side, are rushing work on the temporary buildings, and have recently advertised for 50 additional carpenters for the work.

As soon as operations have resumed under the temporary structures arrangements will be completed as rapidly as possible for the erection of fire-proof buildings.

Resumption of operations so soon after so disastrous a fire will establish a record in Pittsburgh's iron and steel industrial circles. Orders of the company, which is capitalized at $1,200,000, will be delayed nothing like the time at first expected.

A NEW PAPER MILL.

The Rubel Manufacturing Co. Will Erect a $150,000 Plant at Moundsville, W. Va.

The Rubel Manufacturing Company is about to erect a $150,000 plant to manufacture fine paper and stationery at Moundsville, W. Va. The company has offices in this city, New York, Chicago, Boston and Philadelphia, and has plants in New Jersey, and other places, in which about $500,000 are invested. The new plant will employ about 150 people and its daily output will be worth about $1,000.

The Moundsville branch of the Rubel company will be incorporated to capitalize at $150,000. Through the United Securities Company of Pittsburgh these interests have secured a four-acre site for the plant at Moundsville, and the board of trade there has decided to subscribe for $50,000 of the capital stock of the company.

President Rubel was in Pittsburgh yesterday and said that his company had decided to establish a plant in the Ohio valley to supply the trade in the middle west. Special machinery that will be required has already been ordered, and work on the new plant will be started at once.

FREE CHRISTMAS DINNER.

Salvation Army Will Feed 2,000 of Pittsburgh's Needy Poor on December 25.

Following the custom of the Salvation Army in all the large cities of the country the local Salvationists will arrange to give a free Christmas dinner to 2,000 men, women and children of Pittsburgh and Allegheny.

This year no tables will be set, the army plan being to distribute tickets among the worthy poor. Each ticket will be good for one basket, which will contain a chicken or turkey, potatoes, bread, pie, cranberries, sugar, coffee, etc. This plan will allow the poor to eat in private.

To make this great undertaking a success the army appeals to the public for funds. Contributions may be sent to Staff Captain E. White, room No. 1, Excelsior building, Grant and Sixth avenues.

Long Rest Is Ended.

BELLEFONTE, PA., Nov. 20.—(Special.)—After an idleness of 21 years' the fires in the Eagle forge, the plant started originally by the father of Gov. Andrew G. Curtin, were lighted on Wednesday and the plant will be operated permanently along with the Eagle furnace, which has been running very successfully the past year. This is now the only forge in this part of the state turning out blooms of charcoal iron.

COFFEE COMPLEXION.

Many Ladies Have Poor Complexions from Coffee.

"Coffee caused dark colored blotches on my face and body. I had been drinking it for a long while and these blotches gradually appeared, until finally they became permanent and were about as dark as coffee itself.

"I formerly had as fine a complexion as one could ask for.

"When I became convinced that coffee was the cause of my trouble, I changed and took to using Postum Cereal Food Coffee, and as I made it well, according to directions, I liked it very much, and have since that time used it entirely in place of coffee.

"I am thankful to say I am not nervous any more, as I was when I was drinking coffee, and my complexion is now as fair and good as it was years ago. It is very plain that the coffee caused the trouble. Please omit my name from public print." Mrs. ———, 2081 Ogden Ave., Chicago, Ill. The name of this lady can be given by the Postum Cereal Co., Ltd., Battle Creek, Mich.

Most bad complexions are caused by some disturbance of the stomach and coffee is the greatest disturber of digestion known. Almost any woman can have a fair complexion if she will leave off coffee and use Postum Food Coffee and nutritious, healthy food in proper quantity. The food coffee furnishes certain parts of the natural grains from the field that nature uses to rebuild the nervous system and when that is in good condition, one can depend upon a good complexion as well as a general healthy condition of the body.

MRS. FRANK CARTER,
3 Merrill Street, Amesbury, Mass.

This letter should carry Faith and Conviction to the Hearts of all Sick Women.

"I suffered with inflammation and falling of the womb and other disagreeable female weaknesses. I had bad spells every two weeks that would last from eight to ten days and would have to go to bed. I also had headache and backache most of the time and such bearing down pains I could hardly walk across the room at times. I doctored nearly all the time for about two years and seemed to grow worse all the time until last September I was obliged to take my bed, and the doctors thought an operation was the only thing that would help me, but this I refused to have done.

"Then a friend advised me to try the Pinkham medicine, which I did, and after using the first bottle I began to improve. I took in all five bottles of Lydia E. Pinkham's Blood Purifier, four boxes of Lydia E. Pinkham's Dry Form Compound, three boxes of Liver Pills and used three packages of Sanative Wash, and I am as well now as I ever was. I am more than thankful every day for my cure."—MRS. FRANK CARTER, 3 Merrill St., Amesbury, Mass.

Allegheny Select Council Defeats Ordinance Appropriating $2,000.

ONE MEMBER SCORES COMMITTEE

Councilman Stewart Says It Did Not Exhaust All Means to Secure Evidence--Nunnery Hill Franchises Shelved for the Present.

In select council of Allegheny yesterday afternoon the ordinance appropriating $2,000 to carry the bribery charges into the court of quarter sessions was voted down, the ordinance not receiving a single vote. Chairman Elmstein presented the report of the bribery committee also an ordinance authorizing the expenditure of $2,000 to be used in hiring detectives and bringing the charges before the court.

No sooner had this been offered than Joseph Stewart took the floor and opposed the ordinance. He was opposed to continuing the investigation because the committee had not even brought out any point upon which the charges could be substantiated. Neither did he think the committee had exhausted every means within its power.

They had failed to use the local detective force in their quest for evidence, and aside from requesting the public, members of councils and the public press to be present, made no further attempt to secure evidence. He is of the belief that evidence of this nature is not forthcoming freely, but should be sought after.

Mr. Stewart was followed by Dr. Andrew Easton, who was of the opinion that the court would not take cognizance of the case from the fact that nothing more than rumors were presented. He did not think it a rule of the court to take cognizance of rumors.

Paper Should Support Charges.

Mr. Born said he did not think it was right for the committee to expend the money collected by taxes. He said the charges were evidently brought about by one paper with the intention of having a running story, and, since they made the charges, they should carry them out by hiring detectives and attorneys to push the case. When the ordinance came up for action it was defeated.

The resolution recommended by the committee that a petition be presented to the court of quarter sessions asking it to bring the matter before the grand jury was ordered to be placed on file.

An ordinance providing for an additional clerk in the controller's office, fixing the salary at $1,200, was referred back to the finance committee. It was objected to on the ground of economy, as it was considered that the salary fixed was too high. An ordinance increasing the salaries of the chief clerk and assistant clerk now in the controller's office $300 a year was voted down.

The Nunnery Hill Street Railway Company ordinances, which were indefinitely postponed last month, were taken up for reconsideration on motion of Mr. Easton, who read a communication from the company, in which it was stated that the company had $2,500,000 with which to build the railways, and would give a bond of $20,000 that the roads would be built and operated. The motion prevailed, which again places the ordinances on file to be called up at some future time.

Rights Already Given Away.

In reference to the ordinances, Peter Born raised the point that the city had already granted franchises covering the same territory and streets as those asked for by the Nunnery Hill company and could not grant another franchise, but it was left to be discussed at a later date.

The following were passed upon finally: Ordinances for sewers in Buena Vista street and Filbert street; repaving Lane alley, Taggart street and North avenue; authorizing the purchase of engines, boilers and pumps for the bureau of water; resolution authorizing the settlement of the city's claim against the Pittsburgh & Western railroad for $16,000; authorizing the recorder and director of public works to advertise for bids for coal for the bureau of water, specifying the number of bushels at each pumping station; ordinances amending the bond ordinances made necessary by a clerical error.

The following new papers were presented on the call of wards and referred to the proper committees: Ordinance compelling the railways and traction companies to remove animals killed by their cars from the streets they traversed and crossed; resolution instructing the survey committee to report ordinances establishing the grade on Caldwell street, from the Ohio Connecting railway property to Eckert street; Bonaventure alley, from Wheeler avenue to Chelsea street; unnamed alley running from Caldwell street.

McCLINTOCK HEIRS TO MEET.

Effort to Settle the Long-Standing Differences Will Be Made Today at East St. Louis.

Attorneys Frank Whitesell of Pittsburgh and George A. Johnson of McKeesport left yesterday morning for East St. Louis. They will meet the heirs of James McClintock there today, along with a committee of the East St. Louis property holders who are interested in the McClintock claims. An endeavor will be made to effect a settlement of the differences that have been at issue for many years and which the courts have finally decided in favor of the heirs.

At the meeting in East St. Louis today it is thought every one of the lawful heirs of old James McClintock will be present or be represented by counsel. Messers. Whitesell and Johnson will represent Miller McClintock of McKeesport and William McClintock of Bellevue. A meeting of the Pittsburgh heirs was held at the office of Mr. Whitesell yesterday and the terms upon which they would agree to settle were decided upon. The sum is thought to be nearly $10,000,000.

TOLEDO AND DETROIT

Connected With Pittsburgh by New Train Via Pennsylvania Lines.

A new train, No. 405, will begin running over the Pennsylvania lines between Pittsburgh and Toledo next Sunday, November 24th. In addition to a local drawing-room sleeping car for Toledo, this train will carry a drawing-room sleeping car which will go through to Detroit, over the Michigan Central from Toledo. The new train will also have a combined car and coach service and will be due at Toledo at 5:45 a. m. Sleeping car passengers will not be disturbed in their berths before 7 a. m. The sleeping car for Detroit will reach that point at 7:45 a. m. Returning it will leave Detroit at 6:35 p. m., and with the new train carrying the local Toledo sleeping car will leave Toledo at 9:00 p. m., arrive Pittsburgh 5:00 a. m. central, or 6:00 a. m. Pittsburgh time.

WABASH WANTS NO LINE EAST

PRESIDENT RAMSEY DENIES REPORT OF SEABOARD ROUTE.

Time Is Likely to Come, He Says, When One Will Be Needed, and It Is Sure to Be Built Via Pittsburgh. Big Force of Non-Union Men Goes to Work at Union Station--Happenings in the Railroad World.

"The Wabash is not looking at present for a route east from Pittsburgh," President Joseph Ramsey, Jr., of that road said yesterday. "I do not say that the time will not come when the seaboard line for the system of roads, of which the Wabash is the most eastern, will be wanted. When it is wanted, that seaboard line will be via Pittsburgh, for Pittsburgh will furnish a large proportion of the tonnage to be hauled. A seaboard line leaving the Wabash west of this city, as the reported project through West Virginia would require, would be too long to compete with existing Pittsburgh seaboard routes.

"Hundreds of letters are coming to me from persons owning charters or having in sight possible routes of any kind by which we could go to the Atlantic. The same answer is returned to all of these—the Wabash is not ready to consider propositions of this kind.

"As to the Little Kanawha matter, I can say this: If the persons who have acquired control of the Little Kanawha could provide a connection with the Wheeling & Lake Erie at Zanesville or some other point, the Little Kanawha would form a good tonnage-producing coal line from a large coal field of West Virginia to the lakes. Under those circumstances the line would have real value to the Wheeling & Lake Erie system."

President Ramsey spent all day yesterday here. If matters of more moment than keeping in close touch with the progress of the work are under consideration nothing is being said of them.

"In view of the trouble Pittsburgh has in car shortages and freight congestions with the present facilities, the action of councils in this matter seems to me to have been not only absurd, but really criminal," he says.

Non-Union Men Start on Trainshed.

Non-union men to the number of about 200 were set at work yesterday erecting the big train shed at the new Union station. This is the first decisive step since the strike of practically all employes on the new station over the plan to erect the shed with non-union labor. After four days of correspondence with Philadelphia the contractor, Andrew Braun, announces he has had the time-limit for building the shed extended and will go forward with the work as a non-union job despite all strikes that may occur. Hoisting engineers of the station contractors, have now struck, so that there is no one to carry material to the brick-layers at work on the upper stories. This renders them pratically helpless. This systematic strike has stopped nearly all work on the station proper.

Heavy Soft Coal Tonnage.

Many interesting details are recounted in the recent annual report of the Baltimore & Ohio Railroad. Bituminous coal forms 40 per cent of the freight of the company, whereas coke is 10½ per cent. Coal shipments increased about 8 per cent in volume the past year, while coke shipments decreased about 4 per cent. The motive power and rolling stock of the Baltimore & Ohio consists of 1,120 locomotives, four electric motors, 708 passenger cars, and 51,556 freight cars. The Baltimore & Ohio Southwestern has in addition 227 locomotives, 202 passenger cars, and 12,069 frieght cars. In the past ten years the volume of business done by the system has doubled, by far the greater part of this coming in the last four years.

Taking Off Trains.

It was announced yesterday that the fall schedule of the Pennsylvania railroad will provide for taking off 15 local trains temporarily. The schedule goes into effect next Sunday. The reason for the removal of the trains is the improvements now being made in the Union station yards, the speedy completion of which is seriously handicapped by the large number of trains entering the yards. The trains running about the middle of the day are the ones to be taken off, the heavy morning and evening travel still being provided for. In addition to these changes, the time of train No. 1, which now arrives at Pittsburgh at 11:30 p. m., will after the change arrive at 10:45 p. m.

Bessemer Lets a Contract.

The Bessemer & Lake Erie railroad has awarded a contract to the Patton & Gibson Company of Pittsburgh for the enlargement of the North Bessemer yards at Unity, Pa. The work includes 250,000 yards of steam shovel work and is to be completed in time for the opening of lake navigation in the spring.

PROMPT ACTION AGAINST VICE

District Attorney Will Act on the Petitions of Afflicted Citizens.

LAW AND ORDER SOCIETY MAY BE FORMED

Shoulder to Shoulder With the Gazette and District Attorney Haymaker, Ministers and Christians Will Fight Corruption.

The county authorities will take the action against the speakeasies and gambling houses of Allegheny that the municipal authorities have failed to take. The respectable citizens of the afflicted districts will rejoice to learn that District Attorney John C. Haymaker has stepped into the breach and will push the war against these resorts to a finish.

Two petitions were presented to District Attorney Haymaker yesterday, containing the names of numerous property owners in the First and Fourth wards of Allegheny. A list of some of 30 or 40 places was also prepared and handed to Mr. Haymaker.

The district attorney stated that he would take the matter up at once, and had no doubt that the police would do their duty when they were given specific directions as to the location of these dives. He said:

"While I often receive letters from people in all parts of the county requesting me to put a stop to vice that is said to exist in these places, it is seldom that the petitioners are specific in their directions as to where the places are. I cannot, in the nature of things, act as district attorney and detective, but must depend on others to furnish all information when they wish me to act. They only need call my attention to the actual illegalities and I will see that the laws are obeyed.

Police Should Have Acted.

"It seems a shame that the district attorney should have to call the attention of constables and police to the evil, that exists in their communities, but it is sometimes a necessity, and where I find it such I propose to act if they don't.

"I know that this county, and especially Allegheny, is infested with crime, but can only use the power I have as district attorney to suppress it. I should not have to act as detective, police, constable and district attorney, but others should do their whole duty toward the suppression of known evil.

"It is true that petitions were presented to me today calling attention to the evils. One of the petitions was signed by many prominent property owners, and the other by a number of the best-known ministers on that side of the river. Of course, I will have to look into it at once, and will be only too glad to furnish the police with what information I possess. If this does not suffice more drastic measures will be taken, but I have no doubt that the places will be closed to stay closed.

"The names on these petitions are not those of politicians and the police should act in the matter, providing the places mentioned are really speakeasies and gambling joints. The truth of this I will at once ascertain. It is the low gambling joints and places of that character that seem to especially annoy people living in neighborhoods infested with them. These should not exist, and this office has always been anxious to aid in any undertaking that comes within its province. You can rest assured that the matter will not be dropped as long as I have official knowledge of the existence of any place that can be shown, by petitioners, to be a gambling joint or speakeasy."

New Law and Order Society.

The organization of a new law and order society in Allegheny seems to be a probability of the very near future. The exposure of vice in the river wards of Allegheny is responsible for this step, and the church people think it is the best possible manner in which to band together to fight the divekeepers.

Not alone are laymen of the various churches in Pittsburgh and Allegheny taking up the work of attempting to put down the vast number of gambling houses and speakeasies on the North Side, but the pastors also are taking an active interest in The Gazette crusade and will work hand in hand with the members of their congregations and all other Christian people to exterminate these dens of vice.

The new law and order society will be aided materially by the National Reform association, and conducted on an entirely different plan from the former organization. These dens of vice which exist in Allegheny will be visited by detectives hired by the society and as much evidence collected as possible before any suits are entered. After the suits are entered they will be fought bitterly, and not one stone will be left unturned to cleanse Allegheny of the vice and crime which now run riot.

The new law and order society will be much stronger in every way and better prepared to fight these cases than formerly. A number of leading business men of Allegheny have signified their intention of joining the society, and its treasury will be filled at all times with ready money to fight lawlessness in every form.

Dr. McNaugher's Strong Talk.

The Rev. Dr. John McNaugher, one of Allegheny's most prominent ministers, who holds a chair in the Allegheny Theological seminary, is one of the leading advocates of a new law and order society. In speaking of the matter last night he said:

"If this condition of affairs continues to exist in Allegheny a new law and order society will not only be advisable, but a necessity. The aim of the society will be to exterminate, as far as possible, all vice, and both the aid of the city and county authorities will be sought and their co-operation earnestly solicited. The National Reform association will aid and lend its influence in the furtherance of this enterprise, and if the society is once organized you may depend upon it it will be successful. The members will number none but those deeply interested in the work, and they will have but one object: the uprooting of vice from the infected city.

"The new society will be organized on a business basis, and prosecutions will never be made with insufficient evidence to back them up. It may take some time to work up cases, but it will be all the better. No jury in Allegheny county will hear a small amount of evidence. It will be thorough and convincing, not only to the jury, but also to the court. Then we can hope for speedy convictions and relief from vice will at last come to respectable citizens of the vice-infected wards of Allegheny."

That The Gazette, which started a movement against gambling dens and speakeasies in Allegheny some time ago, will not have to fight the dives single-handed is evidenced by the number of prominent people who have taken up the movement and signified their intention of lending their aid and influence to have these places of evil closed. The Gazette is in receipt of hundreds of letters from Allegheny citizens giving assurance of their hearty co-operation in the movement. When the movement was started it was for the benefit of the persons who are compelled to live in the wards where vice and crime run rampant, and it is not the intention of The Gazette to let up until every one of these gambling houses and speakeasies has been closed.

Chinese Speak-Easy Still Running.

The Gazette's exposures of illegal liquor selling in the Chinese restaurants created consternation among the oriental proprietors of these resorts at first, and they are now much more careful about the people they sell to.

A Gazette reporter last night had considerable difficulty in buying beer in the Chinese restaurant on the second floor of No. 306 Federal street, but after a thorough examination by several slant-eyed Chinese waiters was finally served with the beverage.

On ordering a bowl of chop suey, the reporter asked for beer. The waiter, who had previously been able to talk fairly good pidgin English, immediately became a deaf-mute and his face assumed an expression that would have done credit to a wooden Indian. When the demand was repeated to the apparent head waiter he eyed the reporter cunningly and said:

"Na, na, me no sellee beer any longee."

The reporter then asked why, and the enterprising "chink" replied:

"Coppee tellee 'blee clafuly.'"

On being still further pressed, after consulting with the rest of the waiters, he muttered:

"Clonee out klitchen."

Once in the rear room, free from the prying eyes of other visitors, there was no trouble in getting the beer. Ping, as one waiter is called, dived into a nook, which was curtained off, and brought forth two bottles of beer, which was both warm and ill-tasting.

As he was being paid he said:

"Allee lightee, thankee. Come aloun next week, will be allee lightee then."

T. J. English Succeeds John Barron.

T. J. English, for several years superintendent of the middle division of the Baltimore & Ohio, yesterday succeeded John Barron as superintendent of the Pittsburgh division of the Baltimore & Ohio. The resignation of Mr. Barron was mentioned some days ago in The Gazette. Mr. English has had his headquarters at Newark, O., and is well known in this city. He will now have headquarters at the general offices of the Baltimore & Ohio here and will report to General Superintendent W. R. Woodford.

WEAPONS AWED ANGRY NEGROES

Greentree Tunnel Laborers Fought Officers to Release Their Comrade.

CLUBS AND MACES WERE FREELY USED

Assaulting Party Was Driven Back by Threatening Muzzles--Officers Were Badly Used Up in the Fierce Struggle.

Special Officer W. W. Williams and Constable Timothy Golden fought a crowd of angry negroes for nearly half an hour at Greentree yesterday afternoon. Charles Wilson is in jail, on a charge of disorderly conduct, and it was an effort to rescue him from the officers that precipitated the trouble.

Wilson was one of the negro workmen employed on the new tunnel of the Pittsburgh, Carnegie & Western railroad. He was discharged yesterday, and grew very angry when he was told that he could not have his money until Saturday. He threatened the bookkeeper with personal violence, and Officer Williams was called. Trouble followed and Williams went to Alderman Walsh's office, where he swore out a warrant for Wilson's arrest.

Constable Golden came back with Williams and when they took Wilson into custody the crowd of men quit work and tried to get Wilson away. The officers beat the men back with their maces and handyb illies, while the negroes flourished revolvers and knives.

Wilson was finally put into a buggy and a start was made for the jail.

The workmen followed, and, finally, while Golden guarded the prisoner, Williams went back to the contractor's office where he armed himself with revolvers. The show of weapons finally awed the laborers and the interrupted journey was resumed. Both officers were badly used up.

COMMEND ROOSEVELT.

At the meeting of the Humane Society yesterday it was announced that President George Wilson and Superintendent T. M. Porter had been elected vice-presidents of the national organization, and Joseph G. Walter a member of the executive committee. The convention was held in Buffalo, but the committee appointed to elect officers has just finished its work.

A resolution was adopted commending President Roosevelt for the example he set by his refusal to drive horses with docked tails. It was decided to send a copy of the resolution to the president.

The following moneys were reported: Thomas S. Bigelow, $10; Weyman Bros., $20; D. B. Stewart, $10; A. P. Burchfield, $10; A. & S. Wilson, $10; fines from Alderman Samuel Abernathy, $10; Alderman Walter Wadsworth, $10; Alderman C. F. Oyer, $10, and Burgess James Horner of Wilkinsburg, $10.

The Pittsburgh Gazette Cable Features

DICKINSON MAKES PEREMPTORY DEMAND UPON THE BRIGANDS

Must Release Miss Stone Within Six Days or Forfeit the Ransom Money.

BANDIT CHIEF IN LOVE

(SPECIAL CABLE TO THE GAZETTE.)

SOFIA, Nov. 20.—It is said that a gentleman formerly associated with the Macedonian committee and also with the ministry of foreign affairs announces that Consul General Dickinson has addressed a summons to the brigands to liberate Miss Stone upon the payment of a fixed sum within 60 days. After the expiration he will break off all negotiations. The news is apparently true, as Consul Dickinson refuses to contradict the report.

The foreign office here resents the insinuations published abroad that the government is acting in bad faith in the matter of effecting the release of Miss Stone, and explaining its attitude toward Mr. Dickinson, the diplomatic agent here of the United States, affirms its entire readiness to take any action suggested by him.

The foreign office also avers that acting upon the suggestion of Mr. Dickinson it caused the village of Gratchowo to be surrounded and searched a fortnight ago, but the brigands were not there. It also says that Mr. Dickinson's later information to the effect that the bandits were concealed in a defile of the Belieritza mountains, district of Dubnitza, could not be acted on by it, as an inquiry showed the place in question to be within Turkish territory.

The latest intelligence received here sets forth that the brigands are holding out for a high figure of ransom, and it is asserted that they are able to keep their captives as long as this may be necessary.

LONDON, Nov. 21.—Peka Pasha, the chief of Miss Stone's captors, according to a Sofia dispatch, has fallen in love with his prisoner and wishes to marry her. Miss Stone declines to have anything to do with him. Peka, however, is detaining her at his house and hopes that she will relent.

WRONG MAN ARRESTED.

American Vice Consul Confined in German Jail Twelve Hours by Mistake.

BERLIN, Nov. 20.—Referring to the arrest of Mr. Schilling, the American vice consul at Zittau, Germany, the Lokal Anzeiger today explains that Mr. Schilling was arrested early in the morning at his residence in Zittau, in mistake for another man. In spite of Mr. Schilling's protest, he was detained until the eve. when his father, who is the Leipsic representative of an American company, identified his son through the American consul at Leipsic and Mr. Schilling was liberated. The Lokal Anzeiger says the American vice consul was mistaken for a fugitive priest from Magdeburg named Matthes.

Yesterday Mr. Schilling called upon Andrew D. White, the United States ambassador, to report the matter of his arrest and procure satisfaction therefor.

STUDENT RIOTS IN ATHENS.

Proposal to Translate Gospels Into Modern Greek Causes Disorder.

ATHENS, GREECE, Nov. 20.—The agitation of the university students against the proposal to translate the gospels into modern Greek has resulted, during the past two days, in riotous demonstrations against two newspapers which have been advocating such translations. Today the students fired on the police. Troops were then summoned and a serious fight occurred which resulted in the wounding of a score of cavalrymen and several students. A political motive connected with the Slav propaganda in Greece underlies this religious movement.

The university here is guarded tonight by the students, who fear the building will be occupied by the civil authorities.

SANTIAGO DE CHILE, Nov. 20.—It is said here that forces of the Argentine republic have crossed the line of demarkation between Chile and the Argentine republic into Chilean territory.

THE HAGUE, Nov. 20.—The administrative council of the court of arbitration decided today that it was incompetent to consider the Boer appeal for intervention in South Africa.

Want Light on Sherman's Will.

MANSFIELD, O., Nov. 20.—Former Congressman W. S. Kerr of this city, and Myron M. Parker of Washington, executors of the will of the late John Sherman, have filed another suit asking the court to construe the sections of the testator's will relating to the bequests to his wife, whose death occurred prior to the death of the testator.

ECONOMY IS WEALTH

The Economical, Thrifty Person Is the One Who Succeeds in Life.

It seems that almost every body nowadays has a savings account, and this is gratifying news. The Pittsburgh Bank for Savings, Smithfield street, opposite postoffice, the leading savings institution of the state, inform us that they open 1,100 new accounts monthly, averaging $210 each, and their books show the accounts of 27,000 persons, with total deposits of $9,500,000. This is a wonderful record and indicates that our working people are putting away their money in a safe place as against the inevitable "rainy day." This bank will start an account with as little as a dollar, and it pays 4 per cent interest, compounded every six months. Its banking by mail feature is quite an accommodation to out-of-town residents, and is largely availed of. Write for booklet No. 26.

Herc's a Pointer.

Take a postal card, address it to the Cranitonic Hair Food Co., 426 West Broadway, New York City, and write on the reverse side something like this: "Please send me a copy of the 48 page illustrated book, entitled Hair Care and a sample of the Cranitonic Hair Food Products, which the Commercial Gazette says you are sending free and postpaid to people who ask for them." Sign your name, give your address, street and number and mail the card. Then wait a few days and you will receive by mail a sample of the most exquisite French toilet preparation ever offered to the public.

If you will write a letter, enclosing a small lock of hair or a sample of the daily combings, and state if you have falling hair, dandruff or itching scalp, the physicians of the Cranitonic Institute will make a microscopical examination of the hair, send you a report upon its condition and prescribe curative treatment free of charge. 111h

LONDON CRAZY OVER UNDERGROUND ROADS

Nearly a Score of Companies Seek Franchises and All May Be Ignored.

(SPECIAL CABLE TO THE GAZETTE.)

LONDON, Nov. 20.—A lively conflict is imminent between the rival tube interests of Yerkes and Morgan.

Yerkes controls the projected line to Brompton through Piccadilly and is seeking a parliamentary franchise to construct the tube. Morgan is asking a similar franchise for a line through the city, using Hammersmith as part of the route, which is identical with Yerkes' route. Both gentlemen are anxious to tunnel through Piccadilly to the West End.

It is said that Mr. Morgan has proposed a line parallel to the greater part of the distance underground now controlled by Yerkes, and it is also reported that Mr. Morgan will build a new return from Shepherds Bush to the city, to cost $20,000,000. This will give a tube from an inner circle inside the district's circle.

A prominent engineer tonight declares that London is mad over the subject of tubes. Said he: "Nearly a score of companies are applying to parliament for powers to build underground roads costing in the aggregate of $100,000,000. Four separate companies want to burrow the Piccadilly. My opinion is that parliament will detect that a majority of the schemes is the work of speculators in franchises and will probably refuse all proposals. The result then will be a tube bubble burst."

AGUINALDO ASKS A FAVOR.

Wishes to Address American Congress and Express Desires of Filipino People.

MANILA, Nov. 20.—Aguinaldo has written Gen. Chaffee, the military governor of the Philippines, asking the latter's permission to go before congress and express the desires of the Filipino people. Aguinaldo further requests to be accompanied by eight friends whom he designates, four of whom are prisoners at Guam, while the others are prominent in Manila.

Sixto Lopez, who has been in the United States and Europe in the interest of the Filipino insurgents, and who is now at Hongkong, has written to Gov. Taft asking to be exempted from taking the oath of allegiance to the United States on his arrival at Manila, asserting this action might injure his labors in the behalf of peace.

A fund is being raised by the Federal party in Manila for the purpose of attempting to prevent the execution of the Filipino general, Isidoro Torres, who surrendered to the American authorities in the early part of this year, and who was later tried on charges of having violated rules of warfare and sentenced to death. Several congressmen will be asked to exert their influence in favor of Gen. Torres.

PANAMA CLINGS TO HOPE.

Commission's Recommendation for Nicaragua Called a Bluff.

(SPECIAL CABLE TO THE GAZETTE.)

(Copyright, 1901, by the New York Herald Co.)

PARIS, Nov. 21.—Great interest is taken here in the inter-oceanic canal waterway. The supporters of the Panama scheme evidently have not lost all hope of unloading their enterprise upon the United States in the long run.

According to a Daily Mail cable, telegraphed here from London, efforts are being made to represent the interoceanic waterway commission's report in favor of the Nicaragua route as a bluff. One of M. Hutin's officials is even quoted as saying his chief is in possession of evidence that will cause a reaction in favor of their route.

COLOMBIA APOLOGIZES.

Foreign Minister Deplores the Shot Fired at Minister Hart.

(SPECIAL CABLE TO THE GAZETTE.)

(Copyright, 1901, by the New York Herald Co.)

BOGOTA, COLOMBIA, Nov. 8.—The Colombian minister of foreign affairs on October 29 sent a dispatch to United States Minister Hart of Wheeling deploring the firing upon that diplomat by a sentinel at Tequendama Falls and giving assurance that such a "disagreeable incident" would not occur again. Minister Hart replied on October 31, thanking the Colombian official for the kind dispatch.

Mr. Hart was shot at by a sentinel after the sentinel had refused to honor the diplomat's passport.

WILL CONSIDER PENSIONS.

Executive and Legislative Committees of Union Ex-Prisoners of War Will Hold Meeting.

Col. J. D. Walker national commander of the Union Ex-Prisoners of War, has called a meeting of the national executive committee and the committee on legislation to meet at the Hotel Raleigh, Washington, D. C., at 9 a. m. on Monday, December 23. The purpose of this meeting is to consider pensions recommended for ex-prisoners of the civil war.

The members of the executive committee are James Atwell, Pittsburgh; Gov. A. T. Bliss, Michigan; J. B. Moberly, Missouri; O. A. Parsons, Wilkesbarre, Pa.; and Stephen M. Long of New Jersey. The members of the committee on legislation are the Rev. John S. Furgeson of Iowa, and Harry Palmer of Ohio.

Child Killed by Train.

Johnny Mack, the 7-year-old son of Anthony Mack of Tarentum, was killed by a passenger train on the West Penn railroad near his home yesterday. He was on his way from Peterson station, and was run down in a cut near that place. He was knocked off the track and injured so severely that he died an hour later.

MARINES SCALE CLIFF, DESTROY A STRONGHOLD AND KILL THIRTY MEN

Boulders Ready to Hurl Upon Them and Poisoned Spears in Their Path.

RETRIBUTION IN SAMAR

MANILA, Nov. 20.—Maj. L. W. T. Waller of the marine corps has cabled Rear Admiral Rodgers at Manila a full and detailed account of the attack on November 7 by the men of his command upon the rebel stronghold at Sojoton, near Basey, island of Samar.

Three insurgent camps were destroyed, 40 bamboo cannon were captured, much rice and other stores were destroyed and 30 of the enemy were killed.

The rebel stronghold was almost impregnable. The trails leading to it were lined with poisoned spears sticking from the ground and were filled with hidden pitfalls.

Major Waller's command attacked the enemy unexpectedly. To do this they had to scale a cliff 200 feet high. This they climbed barefooted over bamboo ladders. At the top they found boulders piled ready to precipitate upon an attacking party.

Major Waller says he was not present at the action. He praises Capt. David D. Porter and Capt. Hiram I. Bearss for their splendid work, and says too much praise cannot be given the marines themselves, whose behavior he characterizes as brilliant in every respect.

The major considers the scaling of cliffs 200 feet high as a new feature of warfare, and says such men would be able to do anything anywhere. The marines sustained a few trifling wounds.

Rear Admiral Rodgers has replied to Major Waller, congratulating him on this successful action by his command.

THE THREE RIVERS.

(SPECIAL TELEGRAM TO THE GAZETTE.)

CINCINNATI, O., Nov. 20.—The steamer Helen M. Gould arrived this morning from Point Pleasant and at 4 p. m. she left for her first trip in the Higginsport trade. The Lizzie Bay reopened the Pomeroy trade today by leaving for that point at 6 o. m. and the Tacoma resumed her trips in the Marysville trade tonight. The Douglass Hall collected a tow of empties today and left for the Kanawha river at 5 p. m. The repairs to the towboat J. C. Cole will be completed tomorrow and she will start up stream after a tow of logs. The George Matherson was reported to be below four miles at noon waiting for the rise to allow her to proceed over that shallow bar. The stage of the river at 6 p. m. was 4.3 feet. Weather cloudy and threatening.

GALLIPOLIS—River 9 feet and rising. Weather clear and cool.

PARKERSBURG—River 6 feet and falling. Weather mild and cloudy. The Baxter left at noon for Middleport. The Greenwood left at 8 p. m. for Pittsburgh. The Kanawha will be down about midnight for Charleston. The Avalon left at noon for Cincinnati and will go thence to the Tennessee river to enter her trade there. Commodore Dolon's new steamer, Louisa, which he purchased at Paducah, arrived here today for the Little Kanawha river trade.

WHEELING—River 6 feet 2 inches and stationary. Clear and cool. Departures: Kanawha, Charleston, 1 p. m.; Bessie Smith, Pittsburgh, 4 p. m. Up with empties, John Moren, 11 a. m.

STEUBENVILLE—River 4 feet 7 inches and stationary. Weather cloudy and cool.

GREENSBORO—River 6.2 feet and falling. Weather cloudy and cool. Cherry down Thursday. Woodward up.

MORGANTOWN—River 7 feet, and stationary. Weather cloudy and cool.

OIL CITY—River 2 feet 8 inches and falling. Weather cloudy and cool.

WARREN—River 2 feet. Weather fair and cold.

BROWNSVILLE—River 5 feet 6 inches and stationary. Weather cloudy.

POINT PLEASANT—River 4 feet 6 inches and falling. Weather clear and cool. No boats.

BAD STEAMBOAT FIRE.

Vigilant Digs Up a Gas Main and Explosion Follows.

The sand dredgeboat Vigilant, owned by the Iron City Sand Company, was destroyed by fire at 2 o'clock yesterday morning. The boat dug up a gas main while it was dredging sand from the river at Clinton, 20 miles from Pittsburgh. The main broke and an explosion followed, the entire boat being enveloped in flames within a few minutes.

The day crew, six in number, who were in bed, and the five constituting the night crew all escaped by jumping into empty flats lying alongside the burning boats. They escaped with only sufficient clothing to cover their bodies. The gas main that the boat tore up belonged to the Rook Fuel & Gas Company.

Capt. Daniel Lawrence was in charge of the Vigilant. The towboat Winifred happened along shortly after the fire started and Capt. Thomas Bailey took the members of the crew of the burning boat on his steamer.

The Vigilant was built a number of years ago at a cost of $25,000.

Boats Leaving To-Day.

I. C. Woodward, Morgantown, 3 p. m.
Bessie Smith, Parkersburg, 4 p. m.
Rose Hite, Brownsville, 4 p. m.

At 9 o'clock last night the water at Davis Island dam was 4.4 feet and stationary.

The pool deckhands' union will hold a meeting tomorrow afternoon to elect officers.

The new towboat Steel Queen is due from Louisville. The boat is owned by the Pressed Steel Car Company.

Work on rebuilding the cabin of the towboat John B. Lewis was begun at the Marine ways at Cincinnati Tuesday.

The towboat Gleaner, which leaves Louisville today for Pittsburgh, has the machinery of the towboat Jay Gould.

Capt. F. M. Rodgers has purchased a house and lot in Locust street, Bellevue, and will move his family to that suburb.

There are over 11,000 tons of freight in Louisville which would be sent south by steamers if there was a line running.

Capt. Charles Dudding is in command of the Columbia and V. E. Windle is her clerk. The boat is now under control of the Carrs of Charleston.

The steamer Francis J. Torrance had steam up yesterday and she will tow the Elizabeth to Moss Side park today, where both boats will go into winter quarters.

Pilot John McKee has gone to Louisville to pilot the Gleaner to Pittsburgh. Pilot John Werling will leave for Louisville tonight. He will be McKee's partner.

It is reported that there are from 14 to 18 inches of snow in some portions of the Alleghany and Cheat mountains. This ought to make a big rise, if it is taken off by a heavy rain.

It is thought that the Fred Hartweg, which sank in the Mississippi river near Rendolph can be raised. There is only three feet of water over the boat's deck. Randolph, however, is said to be a bad place.

Lazy Liver

When the liver goes wrong, everything is wrong. You have dyspepsia, coated tongue, constipation, biliousness, sick headache, nausea, general debility. One of Ayer's Pills each night, just one, gently starts the liver and removes all trouble.

"I have used Ayer's Pills for liver complaint, and have found them to be the best thing I have ever tried."

FRICK BUILDING THE CENTER

Nearly All the Pittsburgh Forces of the Steel Corporation Will Be Grouped There.

The new Frick building will be the official home of practically all of the scattered forces of the United States Steel Corporation in Pittsburgh. About the time that the great new structure is completed the officers of the Carnegie Steel Company, the National Steel Company, the American Steel Hoop Company and the American Tin Plate Company will take up practically all of the room in the Carnegie building. The other interests of the steel corporation that will then have headquarters in Pittsburgh will go into the adjoining Frick building. This arrangement will practically bring the entire Pittsburgh official family of the steel corporation under one roof. The offices of the National Tube Company in the Conestoga building and the subsidiary operating interests of this company, the Shelby Steel Tube Company, now centered in the Empire building; the American Bridge Company, some of the district officers of which remain in the Empire building, and the American Sheet Steel Company in the Vandergrift building, are arranging to group in the new Frick building.

The new structure is planned to be completed about the first of April, and at that time a number of the occupants of the Carnegie building, foreign to the steel corporation, will vacate, and this structure will be almost exclusively occupied as the offices of the Carnegie, National Steel, American Steel Hoop and American Tin Plate companies, now hampered for room.

TWELVE PAGES

An Extraordinary Situation.

The extraordinary situation in Pittsburgh, produced by constant rumors that the power confided in the governor or by the new charter may be abused for personal or factional ends, is calling forth general comments throughout the state. The Philadelphia Times remarks:

Whether Gov. Stone shall once more rip up the government of Pittsburgh, by removing his own appointee and substituting a recorder of Mr. Pfaff's selection, depends upon the outcome of political negotiations still undetermined. In the meanwhile, municipal affairs in Pittsburgh are apparently at a standstill.

There can be no doubt that uncertainty of tenure spreads paralysis throughout the whole frame of municipal government. The existence of such an authority as that vested in the governor ought not to be any occasion for mistrust and uncertainty.

It does not produce any such results in New York, where the same authority is a regular incident of the governor's power, for it is perfectly well understood that it forms no part of the ordinary operation of government, but is reserved for special and extraordinary occasions, when it would be exercised in a judicial manner. Even in Tammany politics it has never occurred to any faction that the exercise of such an authority could be made the object of deals and bargains as regards municipal appointments.

The Philadelphia Press calls attention to a recent transaction in Schuylkill county. It is alleged that two of the three directors of the poor in that county, although of opposing politics, made a bargain agreeing to act together in making appointments and to divide the spoils. The county controller refused to recognize some of the new appointments and was sued. The developments at the trial were such that the court referred the case to the district attorney and the grand jury, and the two conspiring directors were indicted. The Press remarks:

Now, there is nothing new whatever in the crime for which those Schuylkill officials have been indicted. It was just a little political deal, in which something was to be done by one party in return for something from the other party. It differed only in degree from deals in progress all the time, some involving higher officials, some lower. In what way does it differ from some of the dickering alleged to be in progress for the patronage of the municipal government of Pittsburgh and the control of delegates to the state conventions and members of the legislature?

There is no difference, and it is a disgraceful situation of affairs that statements and rumors making the office of recorder the basis of a deal in the distribution of the offices should have such currency and receive so much credence.

A Belated Decision.

It is interesting to learn that it is the opinion of the courts that the express companies must provide the revenue stamps which the war tax law prescribed for receipts for packages committed to their care. It is interesting, we say, but not particularly important, seeing that the tax on express receipts was removed by congress at its last session, and that portion of the law, with some other portions, went out of effect nearly five months ago. No stamps have been placed on express receipts since July 1, but the court that had the matter in hand went on studiously looking into the subject, with the result noted.

During the time that the law was in operation the express companies carefully collected the price of the one-cent stamps from the shipper. It will be useless to try to get the money back. The game would not be worth the candle. The incident does suggest, however, that it ought to be possible to get an authoritative ruling on a matter of this sort early enough to be of some use.

Something Has Dropped.

Something has dropped in the near vicinity of Mayor James L. Holden of Zanesville, who until recently was a promoter of the "wide-open-town" policy, and the concussion has had the effect of reversing the plans he promulgated when he was installed in office. This sudden change has brought the mayor to the front as a reformer, and he now declares his intention to put a stop to gambling of all kinds, the selling of liquor on Sunday, and the operation of slot machines.

The "something" that was so effective in changing the views of Zanesville's mayor was the indignant protest of the citizens against his "wide-open" policy, and which brought about the legal proceedings referred to in The Gazette a few days ago. Citizens in other communities where law-breaking is tolerated should take encouragement from the victory for reform in Zanesville, and back up their protests in such a manner as to force the authorities to take effective action against evil and evil-doers.

Another Phase of the Case.

It is time that something decisive were done in the way of effecting the release of Miss Stone. That unfortunate missionary was captured by Bulgerian brigands on September 2. Her rescue or release by ransom was expected in a few weeks, but the time has stretched away into months. The case has assumed a new phase. Consul Dickinson is now urging the use of troops to surround the place and release Miss Stone and her fellow-captive. At first the use of soldiers was discouraged, because it was believed that the brigands would kill their prisoners rather than permit their release by force. Then, too, it was thought that terms could be arranged with the captors and that the women could be freed much more easily by private negotiation than if a show of force were made.

All the plans have failed, however. The Bulgarians who have Miss Stone and Mme. Tsilka in charge are either afraid they will not receive the money they ask or that they will be caught and punished if they conduct the captives to a place where it would be safe for the women to meet their friends. Now it is said that the place of detention is known, that only eight men guard the abducted women and that some of them sympathize with their prisoners, making it reasonably sure that the brigands will not harm their captives if troops should be used. Then by all means let a military force be sent. Let something be done to liberate those women, and let it be done speedily!

Fresh Troubles in Colombia.

The troubles in Central America seem to have broken out afresh through the aggressiveness of the Liberal party in Colombia, which yesterday culminated in the capture of Colon by the Liberals. The incident is not of exciting importance except in so far as it may call for great vigilance on the part of the American government in protecting international interests in Panama. Colon is a terminus of the Panama railway and its capture by the Liberals will render more difficult the task of this government in keeping this important connecting link of traffic across the isthmus free from obstruction. As to the results of the capture of the town upon the fortunes of war between the Liberals and the Colombian government little is known, but it is safe to assume that it will prove only another one of the recurring flashes of temporary success that the Liberals, aided by their Venezuelan allies, have from time to time accomplished. There is a sufficient naval force in Central American waters to safeguard the interests of this government, and the reported landing of marines at Colon, if confirmed, will only mean that the United States is simply exercising precaution in doing the duty imposed upon it in connection with the Panama railway.

Reciprocity Discussion.

If the reciprocity convention of the National Manufacturers' association, in session at Washington, shall eschew all efforts to make votes in the senate for or against certain schemes of reciprocity and tariff revision and content itself with an attempt to educate its membership by non-partisan discussion the meeting will not be without results. It is not likely that the senate will be brought to vote as the manufacturers' convention may suggest. First for the reason that the convention is by no means harmonious itself and second because the question of reciprocal trade relations is much too broad to be settled by academic discussion on the part of one set of interested citizens, however earnest and intelligent they may be. There is good to be derived from the discussion of the question, but it is altogether of an educational character, and even this may be neutralized, if not entirely destroyed, by heated argument in defense of individual opinions. All that the manufacturers' convention can accomplish is to stir up public interest and promote intelligent consideration of the existing and proposed reciprocity treaties.

Grover and the Ducks.

With nine broad bills stowed in his gamebag ex-President Grover Cleveland has returned home after spending 13 hours in a marsh. To those who have kept themselves informed on the gunning exploits of the distinguished statesman his latest achievement comes in the nature of a surprise. Although an ordinary hunter would view with pride and boast about a bag of nine ducks, it must be remembered that Mr. Cleveland has earned the fame of an extraordinary gunner, and if the reports of his previous performances with the gun were correct nine ducks represent a great falling off.

There is occasion for further surprise in the announcement that the former president spent 13 consecutive hours in the marsh where he bagged the broad bills, a remarkable exhibition of endurance for a man of Mr. Cleveland's years and weight. There was a time when, according to the zealous chronicler, in fewer hours he killed enough ducks to almost swamp his boat, but at that time the eyes of the nation were resting upon him, and he responded by rising to the occasion. Now that he is a private citizen he does not feel called upon to either equal his old record or establish a new one, and he returns to his home satisfied with ducks in sufficient number to furnish a supper for the family and a few intimate friends.

Maj. Powell's Departure.

The transfer of Maj. Charles F. Powell to another post of duty removes from Pittsburgh an officer and a gentleman whose term of service here has won the respect and esteem of the community. His duties as engineer presented to him many problems complicated with business interests and he has handled them with firmness and suavity, exercising a strict guardianship over public interests, but showing every possible consideration for any proper demand in behalf of private interests. Hence his decisions, while often opposed to riparian claims advanced, have always commanded confidence and respect. It is but due to the profession of which he is a worthy member to say that this has been the regular experience of Pittsburgh with the army engineers who have been from time to time stationed here.

The trial of Mrs. Bonine in Washington City has developed the usual number of millinery experts, whose descriptions of the prisoner's bonnets are very fetching.

Readers of President Roosevelt's horoscope declare that the strenuous life will be continued despite the traditional limitations of the executive office.

Discussions of the nebular theory will have to take a back seat when it comes to publishing recipes for browning the Thanksgiving turkey.

Mr. "Dooley's" dining with the president does not seem to have created any special comment among the anti-Irish people.

Everything else about the New York horse show is pictured in the Gotham newspapers except the horses themselves.

Senator Platt's conference with Mayor-elect Low of New York is sure to give Dr. Parkhurst another moral spasm.

Zanesville's "reform" mayor was early convinced of his mistake and therefore reverses himself with great speed.

New York has another get-rich-quick fraud on its hands. New York is an easy mark.

THE ONLY PROPER MEDIUM.

Merchants Reach a Conclusion Which Tallies With Experience.

From the Philadelphia Inquirer.

The merchants of Hazleton have made up their minds not to waste any more money in advertising by means of handbills and dodgers. They have counted up the cost, and after comparing results, find that the newspapers alone are the proper medium for informing the public of the wares they have to sell. That we indorse this decision may seem to many to be a matter of personal interest. The fact remains, that indorsement of such a course by newspapers would be of no value if it were not in accordance with well-known facts.

We do not pretend to say that there is no other medium for advertising than the newspapers. There are other ways that have been efficacious for certain purposes, but the business men of the country have long come to the conclusion that the newspaper is the only true medium for the great mass of advertisements. It is only through the newspapers that the advertiser can be sure that he reaches a constituency that will pay attention to what he has to say. Most of the handbills that are published are absolute waste. Few take the slightest notice of them, and eventually they are the most expensive and least productive medium that can be used.

Mourn the Lack of Pumpkin Pies.

From the Bath Advocate.

The people of Western New York are confronted this fall by an appalling crop failure, or rather shortage. There are no pumpkins. The lack of big ones was first brought into prominence at the several county fairs, and now those who failed to find the yellow fellows easily for their early fall pies, having made thorough and hurried investigations, find the facts as noted. There are practically no no pumpkins at all. There are three causes. The year is a bad one for pumpkin, anyway. The bugs for the past three years have made eternal vigilence the price of pumpkins, even a few closely guarded pumpkins, so that many farmers, despairing of raising any to sell, have decided to rely on their Uncle John Henry's patch for their domestic pie timber supply, and, lo! Uncle John Henry, everybody's Uncle John Henry, has quit trying to raise them himself. The great reason of the shortage, however, is the corn-cutting machine. Pumpkins, as everybody knows, are usually raised with the corn, but the inventor of the corn-cutting device did not take pumpkins into account, and as a result the pumpkins have to be picked before the machine can be used, which is a great nuisance, and besides the most of the pumpkins would be still unripe. Therefore, there are no pumpkins, and all Western New York is waiting for bulletins from other sections not quite so far advanced as to the prospects of shipments in time for Thanksgiving time.

AMERICAN MODISTES VANQUISH PARIS ARTISTES.

THE PITTSBURG GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, Nov. 20.

The battle of the frocks is on. After weeks of grim preparation, hundreds of fair warriors have dashed into the arena in Madison Square garden, determined to uphold the banners of their particular modistes against all others, and prove that the art of dressing reaches its high-est development at the horse show. Who shall name the best-dressed woman around the grand circle? According to some authorities, she was yesterday Mrs. W. K. Vanderbilt, Jr. Another equally respectable expert gave the distinction to a Philadelphia matron, and still another pointed to a Pittsburgh young woman, the wife of a millionaire, as the champion. One point has come out in this fearful but bloodless engagement that is soothing to the feelings of native dressmakers, which is that American modistes outshine in their sartorial creations the best that has been produced by Paris. Many smart women are wearing American-made gowns at the horse show who would not have done so last year. It is the fad to be patriotic in dress as well as in equine sentiment. Of course, the display of handsome frocks is one of the important features of all metropolitan horse shows, and any new development along these lines causes as much discussion as the appearance in the arena of anything specially choice in horseflesh. It is all part of the show. Young Alfred G. Vanderbilt's several gallant attempts to capture a blue ribbon have not been more generally discussed than Mrs. W. K. Vanderbilt, Jr.'s apricot yellow lace covered gown, her white broadcloth wrap faced with ermine, her boa and muff of white ostrich plumes, her white felt hat with yellow roses, and her diamonds and jewelled lorgnette chain. Alfred G. is only an ordinary young man in appearance; Mrs. Vanderbilt, in her wonderful toilet, is a vision of dazzling beauty. Her dress was all American-made, although her hat is supposed to have come from Paris. It is expected that the battle for supremacy in good taste and richness combined will wax more desperate than ever tomorrow.

The Violet Crowds Out the Mum.

Chrysanthemums are not the horse show flower, after all—at least, not exclusively. Violets are seen in greater profusion than any other blossom around the grand circle at the edge of the tan-bark, where the creme de la creme of society is disposed to gather. Violets are more expensive than chrysanthemums, and that may be a point in their favor with the class that is only anxious for a legitimate way of spending its money. At all events, one does not see many chrysanthemums worn as corsage bouquets, and very few in masculine coat-lapels, except those of grooms. The heavy swell tonight had discarded his chrysanthemum for a small bunch of violets almost to a man.

Mayor Meets and Greets Mayor.

Mayor-elect Low met Mayor Van Wyck in city hall yesterday. The outgoing and incoming chief executive greeted each other cordially, and Mr. Low sat with the mayor through a meeting of the board of estimate and apportionment. When he left he told Mayor Van Wyck that he had enjoyed his visit very much. Then he went through several of the city departments and looked keenly at the methods of carrying on public business. He will know pretty well how to take hold when he assumes office, in the opinion of those who noted his watchfulness today.

Prosperity for the Hotels.

New York hotels are doing the biggest business they ever saw. Horse show week is always a profitable time for them, but the managers say they never saw such a rush as there is this time. The prosperity prevailing all over the country, the magnificent weather, the large and important entries at the horse show, the fact that none of the well-known families are in mourning and the general attractiveness of New York under the combined influence of all these advantages, has brought visitors to the city by the hundreds of thousands. In all the big hotels it has been necessary to take parlors and billiard rooms for dining rooms, and other apartments upstairs for bedrooms. At the Waldorf and Holland it is impossible to get a table at dinner time unless it has been engaged weeks in advance.

Dramatic Editor Sticks to His Story.

The story set afloat that Cecilia Loftus will be Sir Henry Irving's leading woman next season has caused a great deal of denying and recrimination. The dramatic editor who first gave it publicity said that he knew it would be denied, but that it is true, all the same. It has been denied strenuously by Bram Stoker, Ellen Terry and others, who should know, but the dramatic editor reasserted today that the yarn is true, and that Ellen Terry is even now on her farewell tour as a member of Sir Henry's company. The Irving-Terry company will play in Pittsburgh in January. Perhaps the truth of the matter may come out then, if there is judicious questioning.

Walking Becomes Dangerous.

The confusion in Printing House square caused by the tunnel obstructions is getting worse. Every few days the contractors find reason for digging another hole in the space in Park row opposite City Hall park, and they put a sprawling fence around it, hang out a sign, "Danger! Subway Work," and let the unfortunate pedestrains look out for themselves. The turmoil in this part of Park row in the rush hours, morning and evening, beggars description. Occasionally there are accidents in the midst of the rush—some man or woman or boy gets knocked down and trampled; but as a rule the regular frequenters of the row have become used to the conditions and can get through unscathed. But that is no fault of the tunnel contractors.

No Civil Appeal Against the Sentry.

Since it was brought to public attention that the military authorities have the right to kill a deserter without answering to the civil powers, it has been a perilous thing for a soldier to try to get away when under arrest in this neighborhood. Another soldier was shot this morning. He was a prisoner at Fort Hamilton and he tried to escape. A sentry told him to stop two or three times, but the fugitive kept on running until brought down with a Krag-Jorgensen bullet in his back. The shooting was reported to the police as a matter of record, but without apology. The soldier probably will die, but that is a matter between himself and his military superiors.

Promotions on Sale.

It is always a matter of interest here to know what it costs to be promoted in the police or fire department. Incidentally, it has just come out that corrupt attaches of the civil service bureau have been making a policeman for a fee of $400, and fireman for $350. John J. Manley, formerly an assistant foreman in the fire department, has confessed to taking bribes in conjunction with two clerks in the civil service bureau, and it is expected that there will be one more goodly sized scandal before Tammany lets go of the municipal government.

Lulu Glaser's Theatrical Engagement.

In corroboration of a paragraph in The Gazette about a week ago, it has just been announced that Lulu Glaser will begin an engagement at the Herald Square theater on January 27, remaining there indefinitely. She is appearing in an operetta called "Dolly Varden," which has been very successful in other cities. She has not been on Broadway to act since playing the leading role in the ill-fated opera, "The Prima Donna." It was no fault of the little Pittsburgh girl that that comedy did not go. Her performance was admitted to be excellent. It is said she has made a tremendous hit in "Dolly Varden." Dan Daly, who is at the Herald Square in "The New Yorkers," will close his engagement there at the end of next week. Then will come in Richard Mansfield for eight weeks. Miss Glaser and her company will follow Richard.

The Night Hawk Besieges Waldorf.

Those guerrillas of the Tenderloin, the night hawk cabmen, are fighting hard for the share of the horse show profits. They have been making the lives of Messrs. Boldt and Thomas of the Waldorf-Astoria miserable by trying to "butt in" with their cabs and take Waldorf guests away from the individual who owns the cab privilege of the hotel. This gentleman has his cabs all along outside the hotel, in Thirty-fourth and Thirty-fifth streets alike, and it is understood that it is extremely discourteous for any free dance cabby to pick up a fare there; but the night hawk gentry are not troubled with irksome ideas as to meum et tuum, and they have been doing their best to get some of the Waldorf-Astoria patronage. One of their tricks is to drive slowly three abreast up and down the rather narrow street upon which the hotel bears, and another to get in at the curb and resist all efforts to displace them on the ground that they have as much right to a public thoroughfare as the hotel management. A squad of police had to be sent to the battle ground from the Tenderloin station last night, but the squabbling continues tonight with more or less persistence. It is difficult to squelch the night hawk.

Automobile in Fire Service.

Sending in a fire alarm by automobile is the newest feature of strenuous New York life. A fire was discovered among a lot of rubbish from a torn down building at Madison avenue and Thirty-seventh street this morning, and a policeman was anxious to get to the fire alarm box, which was two blocks away. A man was passing in an automobile. He stopped and offered to take the policeman to the box. The policeman jumped in, was pitched out head first by the sudden starting of the machine, got in again, held, on, was whirled around two or three corners, dumped out on his feet by the box, pulled the alarm, saved a lot of property adjoining the place of the fire, forgot to thank the auto man, says the force ought to have autos in the proportion of about one auto to three policemen, and is still talking about the usefulness of a vehicle that can save $100,000 worth of public property with one twist of a crank. The policeman is a little overenthusiastic, perhaps; but that is the way he feels, and he has no hard feelings for the chauffeur on account of being pitched into the roadway, either.

Horse Opinions Backed With Fists.

The horse show is giving business to the police courts among other institutions. A coachman and a Staten Islander (the last named has no other profession, so far as appears on the record) got into an argument on the merits of some of the exhibits in the show, the two having just come out of the Garden, when the Staten Islander tried to make the coachman agree with him by "pushing his face in"—so the arresting policeman described the operation in which the coachman was the sufferer. The magistrate heard a lot of contradictory testimony and then discharged the Staten Islander with the advice to go to the show and look the horses over again, when he might find the coachman was right. There have been other fights over the horses this week, but only a few of them get into the courts.

Wholesale Grocers Will Meet.

Wholesale grocers will meet in convention at the Manhattan hotel tomorrow. It will be the annual meeting of the Wholesale Grocers' association. The organization is composed of the residents of the various state wholesale grocers' associations. The matters talked about will be of a technical character, and particularly the state of trade will be discussed. Pittsburgh will be represented.

A Graceless Girl's Joke.

A young girl who disappeared from her home in Harlem two years ago played a somewhat ghastly joke on her grandfather this morning. He had not heard of her since she ran away. Her family believed that she was dead. The old gentleman received a letter from her today saying that she had moved to No. 245 Crown street, Brooklyn, where she expected to remain for about six months. She asked him to call upon her. He hustled over from Harlem, and when he got to 245 Crown street, Brooklyn, found that the number was over the door of the Kings county penitentiary. His graceless grandchild had been sent there for six months as a vagrant.

THE DEATH ROLL.

Mrs. John Campbell.

Mrs. John Campbell, aged 73, of McKeesport, died yesterday afternoon at the residence of her daughter, Mrs. Rebecca Faulk, in Buena Vista street, Allegheny. Mrs. Campbell was born in Westmoreland county, but had lived in McKeesport the greater portion of her life. She was a member of the Court-san Street Methodist Episcopal church of McKeesport. She is survived by her husband and the following children: Mrs. R. J. Faulk, Allegheny; Mrs. Clara Miller, McKeesport; Mrs. John Keighley, Jeannette; R. F. Campbell, McKeesport; James M. Campbell, Homestead; William S. Campbell, McKeesport; Charles J. Campbell, San Francisco, Cal.; Harry W. Campbell, McKeesport; Emory Campbell, McKeesport; Joseph Campbell, Braddock.

Col. D. M. Fox.

DES MOINES, IA., Nov. 20.—Col. Doris M. Fox died at his home in this city early today, aged 84 years. Col. Fox was born in Jefferson county, N. Y. He started his business career in Detroit when Michigan was yet a territory. He served during the civil war as colonel of the Twenty-seventh Michigan infantry. In 1871 he engaged in the publishing business at Chicago. The business was transferred to New York in 1876, and four years later to Ottumwa, Ia. In 1889 he was appointed registrar of the government land office in this city.

Richard A. Brophy.

Richard Aloysius Brophy, formerly a member of the Pittsburgh detective force, is dead at the residence of his brother, T. Martin Brophy, No. 5304 Penn avenue, after an illness lasting almost two years. The members of the Pittsburgh detective bureau yesterday decided to procure a floral offering, and a committee consisting of Robert Denniston, William Shore and William Elmore were appointed to select a suitable design. Richard Kelley, Thomas A. McQuaide and Charles McGovern were appointed a committee to draw up suitable resolutions.

Thomas J. McTighe.

Common Councilman Thomas J. McTighe of the Fourth ward died yesterday afternoon. He had been ill for some time and had undergone an operation shortly before his death. He was a native of Ireland, but had lived in this city for the greater part of his life. Mr. McTighe was associated in the bottling business with James R. Tracey. He was 58 years of age. He was a cousin of Representative John P. McTighe, and is survived by his wife and two children.

Sister Louise Carey.

WASHINGTON, Nov. 20.—Sister Louise Carey, in charge of the Providence hospital of this city for the past two years, and for 23 years assistant to Sister Beatrice, her predecessor in charge of that institution, died here today of typhoid fever. She was 47 years old. Her mother, Mrs. Mary Lawler, and two brothers live in New York city, and a sister at Troy, N. Y.

Harvey Richardson.

BEAVER FALLS, PA., Nov. 20.—(Special.)—Harvey Richardson, formerly manager of the local office of the Adams Express Company, died at the home of his uncle, William Rea, No. 418 Fourteenth street, last night. For the last 14 years he had been in the employ of the Carnegie Steel Company at Homestead.

Maj. William Wayne.

WEST CHESTER, PA., Nov. 20.—Maj. William Wayne died today at the old Anthony Wayne mansion near Paoli, this county, aged 72 years. At the time of his death he was president of the Society of Cincinnati and he was for several years president of the Sons of the Revolution.

John J. O'Brien.

PHILADELPHIA, PA., Nov. 20.—John J. O'Brien, for many years chief of the Reading Railroad Company's detective department, is dead at his home in this city. He was known in police circles all over the country.

Wilbert W. Frank.

LIGONIER, PA., Nov. 20.—(Special.)—Wilbert W. Frank, cashier of the Bank of Ligonier, died at his home in Somerset last night of Bright's disease. He was 37 years old. He leaves a wife and three children.

Obituary Notes.

Mrs. Edward Twigger, 82 years old, died Tuesday at her home in Sewickley township. Death was caused by paralysis.

Augustus T. Sealy, 76 years old, died at Sharpsville Tuesday. He was a veteran of the civil war and is survived by five children.

Mrs. Jane Sheakley McNamara, widow of James McNamara of Meadville, Pa., is dead at the home of her son-in-law, Lewis A. Anshutz, No. 217 Stratford street.

Mrs. Martha R. McCullough, widow of Anthony McCullough, is dead at the home of her son-in-law, the Rev. D. M. Ure, No. 1017 Western avenue, Allegheny. She was in her 81st year. Mrs. McCullough had been a member of the United Presbyterian church for 78 years.

Trying to Beat Projectiles.

The employes of the Armor plate mill at Homestead are devoting their best efforts toward producing material that a projectile will not penetrate. Only a few miles up the river is another force of men busily engaged at work trying to invent some method of knocking those plates into smithereens. It is now a question of supremacy and we wish our Homestead neighbors success.—Braddock News.

PERSONAL.

The protection of the more advanced Indian, this time the Winnebagoe tribe of Central Wisconsin, was the mission which took Louis A. Pradt, an assistant attorney general of the United States, west over the Baltimore & Ohio last night. Mr. Pradt is in charge of the bureau of claims of the department of justice and expects to spend three weeks looking up the status of a claim which a number of Wisconsin parties, chiefly attorneys, assert they have against the Winnebagos for $64,000. These Indians, who have settled on homesteads, are made the victims of designing parties, Mr. Pradt says, and in every case in which the United States has defended them the Indians have won.

W. R. Layton, a member of a private banking house of Chicago, was a passenger on the Pennsylvania limited last night on his way home from the banquet of the New York chamber of commerce, which he attended Tuesday night. He says the Windy City banking circles are watching with interest the growth of Pittsburgh banks during the past few years. Being based on the city's prosperity, Chicago thinks it will continue.

Anthony Pium, the president of the Twentieth Century Mining Company of Boston, was a guest at the Duquesne last night. The company owns over 200 acres in the Rainy river district of Ontario, Canada, the ore mine being worked producing $3 to a ton. The majority of the stockholders are Pittsburghers, and Mr. Blum's mission is to interest them in developing the territory, including the erection of a stamp mill. Pittsburgh stockholders are J. C. Dysart, Upson A. Andrews, W. R. Stokes, J. D. Yohe, Dr. W. C. Shaw, H. J. Thomas and Charles Bradley.

E. Lichtenstein was registered at the Anderson from the City of Mexico, having stopped over a few days to see Pittsburgh on his way to St. Louis. Mr. Lichtenstein was in charge of the Mexican exhibit at the Pan-American, which, he says, was a profitable one for his government. He says an even larger display will be made at the St. Louis exposition. Mr. Lichtenstein says there are good opportunities in Mexico for hustling young men who can talk Spanish.

Charles Goldsborough, president of the Highspire Distilling Company of Baltimore, is registered at the Lincoln. There is to be held, he says, on November 26 in Cincinnati a meeting of wholesale and retail liquor dealers to formulate plans for presenting to congress the need of reducing the internal revenue duty on distilled spirits from $1 10 to 70 cents per gallon.

Harry Fear of Somerset is registered at Newells. He said: "The people of that town want the next encampment of the National guard and will provide all the acreage necessary. The encampment brought much money to our business men and I know they are all in favor of another encampment. The hotel people would like to see the guard come back to Somerset."

Sylvester Esmond, John Carper, George Biles and Charles McCanc of Buffalo, N. Y., who will all make their homes in Pittsburgh, were entertained last night at the Wilkins club.

NEXT WEEK'S PLAYS.

A Rook Drama, a Classical Comedy and a Diversified Bill of Lighter Amusements Underlined.

Those who desire to see Mary Mannering as the heroine of Paul Leicester Ford's book, "Janice Meredith," should take advantage of the opportunity offered next week at the Alvin theater, as this will be the only time that she will play this piece in Pittsburg. Arrangements are now being perfected for the presentation of a new play adapted from the novel "Graustark," at the end of the present season. Miss Mannering's success as a star is well known to those who keep close watch on theatrical events, and her coming engagement will no doubt be one of the most successful of the present season. The sale of seats begins tomorrow morning.

At the Grand next Monday the stock company will inaugurate a week of "She Stoops to Conquer." For years this play constituted one of the chief features in Augustin Daly's management. Ada Rehan achieving one of her most famous impersonations as Kate Hardcastle. This role will be essayed by Miss Truax. The part of Tony will be played by Mr. Abbe. The other roles, of which there are at least a dozen of equal importance, will be in the hands of capable people.

Almost entirely rearranged and greatly improved, the Brothers Byrne will bring "Eight Bells" to the Bijou next week. This popular production has been on the road several years and its success has been remarkable, and now in its bright new clothes it is destined to another long life. While many of its big features still remain there are a number of new ones and the old "Eight Bells" is scarcely recognizable.

The Empire theater offers as its attraction for next week "The Secret Dispatch," a new and, it is said, intensely interesting melodrama by David Higgins, author of "At Piney Ridge" and "Up York State." The drama is said to be a vivid picture of civil war times and well worked up in a most natural way.

James J. Corbett, who heads the all-star roster of artists with the Empire show at the Duquesne next week is one of the greatest surprises in vaudeville today. Besides Corbett there are a number of first-class acts comprising one of the best attractions of the season at the house.

Considered as an amusement enterprise it is no exaggeration to say that Harry W. Williams, Jr.'s, Imperial Burlesquers covers every kind of theatrical entertainment. The company comes to the academy next week. They will present two up-to-date musical reviews, entitled "Our Lady" and "On to the Front."

Extra Matinee.

In order to accommodate the demand for seats the management of the Bijou have decided to give an extra performance of The Sign of the Cross tomorrow, Friday, afternoon.

There is a call for the leaders of both factions to seek to bring about this condition. The Democratic party, slightly flushed with new power, will foster new hopes in many sections. They will be justified in these if the Republicans do not get together, and in doing so show greater

SOCIAL EVENTS AND HOME GOSSIP

MOST auspicious was the introduction to society yesterday of Miss Romaine LeMoyne and her cousin, Miss Clark. Their debut took place through the medium of a large afternoon reception given by Mrs. LeMoyne at her present residence in Shady avenue, East End.

Receiving with Mrs. LeMoyne were her eldest daughter, Mrs. Benjamin Page; her sister, Mrs. R. M. Clark, and the two debutantes. The line of assistants included a number of the girls who entered society last season and a few of the young married women, among them being Miss Ada McCrea, Miss Margaretta Wood, Miss Martha Ferguson, Miss Virginia Johnston, Miss Jeannette Hawkins, Miss Edna Johnson, Miss Eleanor Painter, Miss Eleanor DePuy, Miss Amy DuPuy, Mrs. Frank M. Schwartz, Mrs. Frank J. LeMoyne, Mrs. J. Ramsey Speer and Miss McClintock. The debutantes were prettily gowned in white mousseline trimmed with lace and carried different flowers during the afternoon, changing one bouquet for another as the reception progressed.

The house was tastefully decorated in yellow and green, save in the parlor, where the decorations consisted entirely of the many bouquets the two girls received. These were arranged upon tables and chairs, banking the mantel and adding piquant coloring to the furnishings of the apartment. Yellow chrysanthemums with palms and ferns enhanced the beauty of the other apartments and were very effective in the dining-room, where the tea table was placed. Dr. and Mrs. LeMoyne with Mrs. LeMoyne's sister, Mrs. Clarke, and her daughter are staying in Pittsburgh this season, having taken a house in Shady avenue. Dr. LeMoyne's ill health has caused the continued absence from Pittsburgh of the LeMoynes for several seasons, but they returned this winter that their second daughter, Miss Romaine LeMoyne, might make her debut among her former school friends.

A Successful Benefit Matinee.

A brilliant social gathering, a crowded house, and one of the prettiest of comedy operas, combined to make of the Free Kindergarten benefit yesterday afternoon at the Alvin a distinct success socially, artistically and financially. The tuneful music of "Miss Bob White" was heartily enjoyed, which the humorous situations provided by the librettist afforded comedy of the most delightful kind.

The boxes were filled with parties of well-known social women, accompanied in many cases by the younger members of their families, while throughout the body of the house were many matinee parties. There was a large number of children in every part of the house. Mrs. Aaron French entertained a company of young girls in her box. With Mrs. James I. Buchanan in another box were the members of the faculty of the Kindergarten college. Mrs. Henry Kaufmann had a party of friends with her, including Mrs. Morris Kaufmann, Miss Irene Myers, Miss Stephanie Schoenberg, Mrs. Wolff and Mrs. Vogel. Mrs. Alexander W. Rook occupied a box with Mrs. Helen Rook Carroll, Miss Harriett Carroll and several school friends. Miss Lucille Mellor and half a dozen girl friends were with Mrs. William L. Mellon in her box; Mrs. Edward M. Bigelow entertained Mrs. Benjamin Warren and her guest, Miss Hunter; Mrs. Albert Schultz and the Misses Schultz were in still another box. Other ladies who entertained small parties of friends were Mrs. Samuel A. Ammon, Mrs. Thomas Liggett, Mrs. W. Harry Brown, Mrs. Omar Scott Decker and Mrs. John Eaton. Pretty souvenir programs books were presented each patron of the matinee.

Miller-Hatle.

The Rev. Owen Elwood Hatle and Miss Lydia Dartheela Miller were married at the bride's home in Ford City, Pa., yesterday at 3:30 o'clock. The wedding was a very quiet one, as the bridegroom has been unexpectedly transferred to the Eighth Avenue Methodist Episcopal church of Oakland, California. As he was to go at once the wedding was hastened and he and his wife are now on their way to Washington for their wedding journey. The bride is the daughter of Dr. B. T. Miller, for 40 years an honored member of the Pittsburgh Methodist Episcopal conference. She is the niece of Mrs. C. E. Locke of Buffalo, formerly of San Francisco, and of Dr. James B. Wood of Oakland, Cal., and is a granddaughter of Capt. John A. Wood, for many years a prominent coal man of Pittsburgh and New Orleans. The bridegroom is a native of California, and supplied for six years in that conference while attending school. He spent three years in the University of California and represented his college in the intercollegiate debate with Stanford in 1900. He took his degree from the University of Chicago in June of this year. The young couple will spend a few days at the national capital and when they return Mr. Hatle will go to his new field, but his wife will not go west for a month or two.

In Honor of a Bride.

Mrs. Thomas Evans of Negley avenue gave a large afternoon reception yesterday for her new daughter-in-law, Mrs. Howard Salsbury Evans, a bride of last spring. The hostess and her daughter-in-law received together, and assisting them was a group of married women, including Mrs. Joseph Fawell, Mrs. Howard Evans' mother; Mrs. A. P. Burchfield, Mrs. Joseph G. Walter, Mrs. W. C. Jutte, Mrs. A. E. Niemann, Mrs. Ella Coffin, Mrs. H. C. Bair and Mrs. Albert McElvey. A group of the young women who acted as bridesmaids at the wedding of Mrs. Evans completed the group of assistants. They were Miss Laura C. Fawell, Miss Nettie Nicholson, Miss Margaret Aiken, Miss Edith Speer, Miss May Llewellyn, and Mrs. Walter G. Herr.

The house was handsomely decorated with palms, chrysanthemums and roses. In the parlors the flowers were exquisite pink roses, in the library and the hall were brilliant red Liberty roses, and in the dining room yellow chrysanthemums.

Art and Music.

Mrs. M. I. Coffin-Graff gave the last of her series of four lectures on the Pan-American exposition the lecture occurring at her home in Lehigh avenue yesterday morning. Mrs. Graff chose for her final lecture, "Some Impressions from the Pan-American" and told in her interesting and comprehensive manner of some of the things in art of the exposition which made the deepest impression on her mind, the exhibit of the department of fine arts and the general architectural plan appealing most to her.

"Art and Music" were taken up yesterday afternoon at the regular meeting of the New Era club in the assembly rooms of the Central Young Women's Christian association. The program included discussions of dramatic and musical art and painting, the sixth annual exhibit in the Carnegie institute furnishing a fund of interesting material for the open discussion which was conducted.

Some Future Social Affairs.

Mr. and Mrs. Francis T. F. Lovejoy of Edge Hill, Braddock avenue, have issued invitations for a card party on Tuesday, December 3. Mr. and Mrs. Lovejoy will also issue invitations for a large reception Tuesday evening, December 17.

Mrs. Andrew Fleming's entertainment Saturday evening, November 30, at her home in Allegheny avenue, Allegheny, will be in the nature of a family gathering to celebrate the birthday anniversary of the hostess.

Miss Georgie Gormley will give a card party at her home in St. James street, Shadyside, on Friday afternoon, November 29.

A dance will be given in Wallace Hall, Wilkinsburg, Wednesday evening, November 27, at 8 o'clock. The patronesses include Mrs. William Sage Daizell, Mrs. George W. Wurzell, Mrs. R. W. Anderson and Mrs. William Richards.

Snow Ball Garden Bazar.

An innovation is promised in the way of decorations by the members of the Adelaide Howard Mission band, of the Second Presbyterian church, Penn avenue and Seventh street, the Rev. S. Edward Young, pastor, at their annual bazar and supper Friday evening. The lecture room of the church will be arranged to represent a garden white with snowflakes on bush and bough, while huge mounds of snowballs will be found here and there as though a party of children had been at play. Booths will be erected in this garden for the sale of commonplace articles, fancy work, candy, ice cream, art, dolls, lemonade and toys.

Mrs. Bixler's Reception.

A handsome at home was given yesterday afternoon by Mrs. Albert G. Bixler at her home in McKee Place, Oakland. Mrs. Bixler was assisted by her sisters, the Misses Gerwig of Allegheny, and by her nieces, Miss Alma Gerwig of Wilkinsburg, Miss Emma and Miss Stella Leetman of Allegheny, Miss Edna Gerwig, Miss Elva Gerwig and Miss Clara Gerwig of Wilkinsburg, and Mrs. Florence Bixler of Youngstown, O. The afternoon reception was followed by an informal dinner for the assistants. Pretty decorations prevailed throughout the house.

Miss Blow Arrives.

Miss Susan E. Blow will come to Pittsburgh today from Brooklyn, where she has been giving a very successful course of lectures at Pratt institute. Her lectures at the Kindergarten college begin this afternoon at 3 p. m., the subject being "Inner Collectedness, or How to Cultivate Poise of Mind and Character." The lectures are open to the public. Miss Blow will be entertained by Mrs. H. E. Collins, Dallas avenue, and Mrs. W. W. Card, Penn and Homewood avenues, during her four weeks' stay in this city.

PRISCILLA'S PENCIL

Went wandering into some of the toy shops yesterday and there was attracted irresistibly by the dolls of different nations, shown in bewildering array. Cunning little Esquimaux in white fur, in brown fur and in softer sealskin than mere grown-ups know are close beside richly colored Indians, whose war cloaks and feathers will delight small boys this Christmas. Italian girls, Roman peasants such as cluster outside the cathedrals to beg, Florentines with pearl beads and coral bracelets, Neopolitans holding fairy tambourines, all may be found, most of them so artistically dressed that their charm extends far beyond the limit of childhood. What a splendid accessory to the study of geography a set of these little national figures would be!

An Appropriate Gift—

For a man is a long photograph case of leather or linen, made, of course, by the dainty hands of his fair one. It is made just the height of a cabinet picture and may be as long as there are pictures to fill it. One I saw yesterday has space for five photographs, and folds up to the size of one. It is made like the old portfolios which we all used at school, the pictures slipping in from the lower edge. They may be ornamented or adorned in any way fancy suggests.

The Very Newest Thing—

In engagement gifts is a set of after-dinner coffee spoons or a set of tea spoons. As each spoon is separately purchased and presented at the "Shower tea," given by every well intentioned fiancee, the result is usually a motley collection welcomed by every woman who loves original feature in her service.

Telephone Teas—

Are all the go just now with some of the younger girls who have imbibed rather more of the hurry of this careless age than is good for them. A round of telephone messages in the morning, a hasty survey of the possibilities in the way of candies and flowers, and presto, a full grown entertainment is in vogue before dark. So many have been given involuntarily that they are now christened with the above title, and hold a recognized place in the lists of the hurrying young set which originated them.

A Pale Blue Touch—

May be noted on every other gown seen this season. On black and white it is charmingly chic with a bit of deep green half hidden behind it, to show off its translucent hue, and against cream color it is ravishing. But with coral or crimson it savors somewhat of affectation, though Dame Fashion seems to have said "stay." One in course of preparation for the orchestra concert this week will be laid high on the left breast against a mauve pink silk crepon, and will be matched by a smaller replica in the hair.

One of This Season's Debutantes—

Who went into a shop the other day to buy a pair of gloves, caught sight of a pair of white silk knit baby bootees. With a cry of joy she siezed them and demanded the price. While they were being wrapped her companion said: "I did not know that you were interested in any special infant."

"Neither am I," was the response, given with a merry laugh. "But I simply cannot resist baby things. I buy every pretty thing I see, and I have nearly a steamer trunk full at home now. Mamma says it is the strangest fad she ever saw, but they are so sweet that they simply overcome every scruple when I see them."

The Latest—

And most up-to-date thing in charms is a grain of yellow corn, gathered on a full moon night in August and worn on the watch chain or bracelet by means of a bit of scarlet wool threaded through a hole in the center. It is believed by all the girls who wear it, to confer health and wit—and what girl needs more to make her irresistible?

The Nursing Mother and Her Child

What a constant drain upon her strength the nursing mother sustains? How vitally important is robust health—important to mother and important to child.

Is there any time in a woman's life when perfect digestion is so absolutely essential?

The mother's condition at this time affects the whole family, and vitally affects the whole future life of the little, helpless infant.

The Genuine **Johann Hoff's Malt Extract** is the nursing mother's friend and safeguard. It sustains the mother's strength in the days before the child is born, and is a staff to lean upon at all times, especially until the child is weaned.

The peculiar fitness of

Johann Hoff's Malt Extract

for sustaining a nursing mother's strength is well known. It makes flesh and blood by promoting a perfect digestion. This keeps the nerve centres in full control and most excellent results follow. There is no mystery about the action of this great flesh and blood builder; it aids nature by the perfect assimilation of food, in which is the mainspring of all strength.

Dr. I. N. Burns of Denver, Colorado, says:

"I consider JOHANN HOFF'S MALT EXTRACT superior to all other remedies in the treatment of suppression of milk, and as a general tonic for nursing mothers."

R·I·P·A·N·S

I had been troubled with gastric dyspepsia for two years. I could not eat or sleep, was short of breath and suffered from dizziness. I found no relief until I heard of Ripans Tabules. After the first 5-cent box I felt the difference. When I had taken six of the 5-cent boxes I was able to eat very well, and to sleep, and the dizziness gradually disappeared. They are worth their weight in gold.

W. U. P. Scored a Clever Victory--West Point Sprung a Surprise on Pennsy

W. U. P. ELEVEN WON THE GAME

Defeated Westminster in a Contest That Was Very Cleanly Played.

TOUCHDOWN SCORED IN EACH HALF

The Visitors Played a Clever Game but Were Never Dangerous. Chancellor Brashear Complimented the Players.

Western University of Pennsylvania was the victor yesterday by a score of 11 to 0 in the annual football contest with Westminster, which was the first and only game of the season Wup has played here for a gate admission. A crowd of about 2,000, one of the largest in the history of the Wup contests at Recreation park, was none the less effective in its enthusiasm because of the absence of the annoying din of tin horns and cowbells which in previous games have prevented Westminster from hearing its own signals.

The disputes which in the past have marred the meetings between the two schools were also pleasingly absent, and the contest, while most stiffly contested, was one of the cleanest ever played on a local gridiron. Chancellor Brashear was an interested spectator, and at the close stepped up and congratulated the visitors upon their plucky game and sportsmanlike bearing. He also expressed himself as greatly pleased with the showing which the Western University students have made in spite of all handicaps.

W. U. P. Rooters Were Plentiful.

Though the game lacked uproarious hilarity which students sometimes think necessary to college spirit, it was one of the best supported in the history of Wup athletics by the student body. Wide attention was attracted by the demonstration of about 300 students of the medical and dental departments, who paraded Fifth avenue and the downtown district behind two brass bands before proceeding to the game.

Though the score was not a large one and though there was never a moment during which the spectators were not aware that the was a football contest on the field before the home team neither Mittle doubt from almost the first as to which was the better eleven. Sometimes the visitors carried the Wup line with repeated rushes and several times held Wup for downs, but the home collegians were always equal to the taking of the pigskin when it reached dangerous territory, while Westminster never looked dangerous.

But for two fumbles in the second half one but four yards from the goal line, Wup should have had at least one more touchdown in the second half.

Some of the Star Players.

Tennent played the star game for Westminster and his end was about impassable. For Wup, Simpson, the captain of the Franklin and Marshall eleven last season, was good for a gain almost every time he was given the ball until, he was forced to retire, though not seriously injured. Martin, Reed, McConnell, Secrist and Cummings were also good ground gainers, McClain made several good dashes.

Westminster selected the north side of the field on the winning of the toss, McConnell kicked off to Lambie, who carried the ball back 20 yards. Westminster steadily gained on line plays until Wup took the ball on downs at the 52-yard mark. Simpson made five, and then Martin worked in the best run of the game around Westminster's left end for 20 yards. Reed, Secrist, Cummings and Martin placed the ball five yards from the line and McConnell skirted the opponents' right end for the first touchdown. McConnell kicked goal and the score was 6 to 0 for the home collegians.

Neville kicked off to Westminster, and, after Simpson was downed on Wup's 20-yard line, the ball was carried on line play and a few end runs to the center of the field, where the visitors got the ball on downs. Moore, Donaldson and Tennent doing most of the gaining, the ball was carried rather easily by Westminster to Wup's 9-yard line, where the home team braced up and got the pigskin back. Cummings, Reed and Simpson carried the ball to near the center, when on the third down Wup retreated 20 yards, retaining the pigskin instead of losing on downs. McConnell kicked, but Martin for Wup shortly after regained on fumble. After Wup had suffered the only penalty of 10 yards for offside play, the first half ended with the ball in Westminster's hands on the visitors' 27-yard line.

Scored Another Touchdown.

Gaining the ball on Neville's kick-off at the opening of the second half the Wups never lost possession, marching from their own 20-yard line to the second and last score. Simpson and Secrist were the star gainers. After Martin had gone out of bounds on the three-yard line while attempting the visitors' left end, the most determined fight of the game took place. Secrist failed to gain, Reed placed the oval but one yard away and then Secrist was rushed over in a stubborn buck. Morrow missed the punt out, and the score was 11 to 0 for Wup.

On the kick-off Wup again made a steady carry down the field from Westminster's 22-yard line, and it looked like a repetition when Cummings, who had replaced Simpson at half, fumbled. Westminster was immediately forced to punt. The ball was advanced to within 11 yards of a score when another fumble by McConnell this time lost it, and the game ended with the ball on the visitors' 14-yard line in their possession. The line-up:

W. U. P.—11.		Westminster—0.

BY NARROW MARGIN.

Columbia Beat the Middies, but It Took the Hardest Kind of Work.

ANNAPOLIS, MD., Nov. 20.—The Columbians beat the Middies today but by a very narrow margin. The game, which was closely fought from beginning to end, resulted in a score of 6 to 5 for the New Yorkers but was in doubt until the last minute.

When the game was called Belknap kicked off for the navy. Morley got the ball and started up the field, but when tackled by one of the sailors, fumbled, and a cadet fell on it. Then the middies began to hammer the Columbia's line, which yielded slowly to the weight the cadets threw upon it. Nichols, Freyer and Land rushed the ball forward and Land scored the first touchdown after five minutes of play. Freyer failed at goal. On Columbia's kickoff Smith got the ball and advanced it ten yards before he was downed. After a few rushes Belknap punted, this being the first time that Columbia had the ball in this half.

The navy then brought the ball within 20 yards of a touchdown where on a fumble Columbia got it again. The navy's line held them back, however, and the middies got the ball on downs and had rushed it to Columbia's 10-yard line when time was called for the first half.

In the second half Columbia started in fiercely to redeem herself and the team showed a brace up. Weekes made two pretty runs of 20 and 25 yards. On a close formation play Captain Berrien broke through and secured a touchdown which Bruce kicked goal. The Middies worked hard for another score but could not quite reach. The score and line-up:

Columbia—6.		Navy—5
Boysen	L. E.	Whiting
Smith	L. T.	Reid
Klingler	L. G.	Carpenter
Shaw	Center	Oak-Fretz
Duden	R. G.	Belknap
Bruce	R. T.	Morley
Wolff	R. E.	Soule
Morley	Q. B.	Smith-Weaver
Weeks	L. H.	Freyer
Mar. Hoevenberg	R. H.	Land-Strassheim
Berrien (Capt.)	F. B.	Nichols (Capt.)

Touchdowns—Land, Berrien. Goal—Bruce. Umpire—Prof. Paul Dashiel of Annapolis. Referee—Church of Columbia. Time of halves—Two 25-minute.

FEAR GAMMONS AND FULTZ.

The Quaker Stars Are Afraid of Homestenda Speedy Backs—Great Interest in Game.

PHILADELPHIA, PA., Nov. 20.—(Special)—Local interest in the coming football match between the Homestead and the Philadelphia team is almost as great as in the Pennsylvania-Harvard game. The people of this city are just beginning to realize that they are represented by a star eleven and knowing the strength of the Pittsburgh eleven they are expecting the greatest game of the season on Saturday.

The local team is practicing daily and is in prime condition for the game. The players are confident of winning, although they expect a hard struggle. All of the men are now here. Al Bull and Devlin, the former Georgetown player, came in Tuesday. Capt. Wallace put his team through two hours of hard work today. Several new formations were tried and several trick plays were used.

The local team fears the end runs of Gammons and Fultz more than the line bucking plays, and everything will be done to strengthen the ends.

THE FOX STILL GOING.

The Kentucky Hunters Are Having Hard Luck.

IRVINE DEPOT, KY., Nov. 20.—The second day of the National Association of Fox Hunters brought no better results than the first. The derby, which was not finished yesterday, was started early today, all of the 17 entries remaining in. Big Sand hill, on the west side of the river, was selected for the trial, and the puppies were cast three miles from this place. Not striking a trail they were taken two miles away, toward Wit Springs. A number of arrivals during the night has increased the attendance considerably.

At the Hamilton farms the dogs soon had a fox going and the hunting party witnessed fine running for two hours. The valleys re-echoed the sound of the pursuing pack until the sun dried the leaves and the scent was bad. At noon the race was called off. It is possible that the judges may require another trial tomorrow before making a decision. About 150 persons followed the hounds.

PENNSY BEATEN BY THE CADETS

The University Eleven Got a Severe Drubbing in the Game at West Point.

DALY WAS VERY MUCH IN THE GAME

Made a 65-Yard Run for a Touchdown, but the Play Was Not Allowed—Cadets Won by Playing Superior Football.

WEST POINT, N. Y., Nov. 20.—The University of Pennsylvania football team was defeated by West Point Military academy and incidentally suffered one of the worst defeats in her football history. The score, 24 to 0, shows how West Point outplayed the Pennsylvanians. The visitors put up a stiff game, however, and were beaten simply because West Point played a superior article of football.

After Pennsylvania kicked off the ball was in West Point's possession on her own 30-yard line. Bunker, Graves and Casad, with excellent interference, carried the ball to Pennsylvania's 15-yard line, where Pennsylvania was given the ball for off-side play. Pennsylvania, however, was forced to kick. Again West Point, by center rushes and a pretty hurdle by Bunker, carried the ball to Pennsylvania's 10-yard line, where Casad was forced over for a touchdown. Daly kicked goal. Score: West Point 6, Pennsylvania 0.

Pennsy Tried Many Trick Plays.

After the next kick-off Pennsylvania secured the ball and by a series of trick plays and revolving circles forced West Point back for 30 yards, but West Point was given the ball for off-side play and again worked it down the field and pushed Bunker over for a touchdown. Daly kicked goal, making the score: West Point 12, Pennsylvania 0. The half ended with the ball in the middle of the field.

In the second half West Point kicked off to Reynolds, who was downed on Pennsylvania's 35-yard line, after running 10 yards. Pennsylvania made the first down three or four times by revolving plays and a double pass, when she was forced to kick. West Point again worked toward Pennsylvania's goal and when on Pennsylvania's 25-yard line Farnsworth was put through the line and made a touchdown. Daly kicked a goal. Score: West Point 18; Pennsylvania 0.

On the next lineup after an exchange of punts Daly, on a fake kick, simply twisted, zigzagged, and stole his way through the whole Pennsylvania team and ran 65 yards for a touchdown, which, however, was not allowed, on account of holding by West Point.

Fierce Rushes for Last Touchdown.

Pennsylvania was given the ball but was soon forced to kick to Daly, who was downed on West Point's 40-yard line. Then began a series of the fiercest rushes seen during the day until the ball was again on Pennsylvania's 35-yard line, when McAndrew was put through the line and he sprinted for another touchdown. Daly kicked the goal. Score: West Point 24; Pennsylvania 0.

On the next kick-off Daly was taken out of the game and Williams put in at quarter and after a few exchanges of punts time was up. The score and lineup:

West Point—24.		U. of P.—0.
Farnsworth	L. E.	Nelson

IN BEST OF SHAPE.

Jack McClelland Is Ready for Jack Hamilton.

Jack McClelland and his manager, Billy Corcoran, will leave this morning for New Castle, where the Pittsburcher opens Jack Hamilton tonight in a 15-round contest at 128 pounds. Both boys have been in training for two weeks and reports are that they are in good shape. Hamilton is considered the toughest featherweight in the country and as McClelland has met and beat all the best men in his class, a great go is expected. The preliminary will be 10 rounds between Dave Wayne and Jimmy Dunn. There will be a large crowd from Pittsburg and surrounding town as attend the contest. The last train leaves the Lake Erie depot at 7 o'clock.

The Carnegie Clubs Will Meet.

Supt. Ballard of the Homestead L. A. C. yesterday gave way to Supt. Crane of the C. A. C. of Braddock and the game scheduled for Saturday between the two football teams will be played. Crane objected to Marshall of last year's Homestead baseball team and Willis of the Lalus team. Mr. Ballard demurred to these. The game promises to be extremely lively as this is the first time the two Monongahela valley Carnegie clubs have met, there having been so much rivalry and bad feeling between the two that all relations were severed and a peace was only concluded two weeks ago.

Greensburg Eleven Starts Practice.

GREENSBURG, PA., Nov. 20.—(Special.)—The Greensburg eleven that will represent this town in the Thanksgiving charity football game with Latrobe has been organized and began practice tonight. The women of Latrobe have entered enthusiastically into the carnival and have finally persuaded some old time stars down there to play. The town's make-up consists of Jone Donahue, Sigman, Tom Donahoe, Baine, Eicher, Thomas and the like.

YALE AND HARVARD TEAMS PREPARING FOR BIG GAME

The Eli Eleven Roughly Treated by Reinforced Scrubs--Common Team Shows Great Form in Practice Work.

(SPECIAL TELEGRAM TO THE GAZETTE.)

NEW HAVEN, CONN., Nov. 20.—The practice of the Yale football team this afternoon was not such as to encourage the 'varsity showed up very strong yesterday on the defensive against the scrub team. This afternoon the scrubs were reinforced by Charlie Chadwick, the veteran guard, and by Glass and Bloomer. "Skin" Brown was also in the line for a few minutes at tackle. This combination proved too much for the 'varsity. In the tackle back plays Bloomer smashed the 'varsity line repeatedly for good gains. The 'varsity players were unable to stop the scrubs, and three times the scrubs carried the ball over for touchdowns from the 20-yard line. The coaches thundered and shouted, but the 'varsity was still unable to stop the attack. Glass and Chadwick opened up the 'varsity line and Bloomer was shoved through for more or less of a gain almost every time he took the ball.

The only 'varsity player who received any compliment from the coaches this afternoon was Hogan. His work was far better than it has been, and several times Rhodes and Rodgers complimented Hogan by saying "That's all right; do it again." Harvard's tandem play was used by the scrubs, and the 'varsity players were told to stop it. This they could not do at first, and the 'varsity boys kept giving the ball to the scrubs at the 'varsity 20-yard line and making the 'varsity play on the defensive. Finally the 'varsity stopped the tandem play a couple of times. But on the whole, Harvard's play was a ground gainer against the 'varsity.

CAMBRIDGE, MASS., Nov. 20.—(Special.)—Harvard had her last secret practice before the game with Yale today. In a keen, bracing wind her players put lots of ginger into their work and emphasized their last struggle with the scrubs by scoring four touchdowns against that team. "Rub it into Eli" has been the slogan at Harvard for the last two weeks. The work of the team was clean, fast and sure. Campbell and Blagden were again in the line-up, throwing to the wind idle rumors that have lately been circulated that neither of them would be able to go into the game on Saturday.

RANK OUTSIDER WAS A WINNER

Handicapper, Who Was Quoted at 20 to 1, Captured the Final Event.

NOT A FAVORITE SHOWED FRONT

Einus, a 100 to 1 Shot, Was Narrowly Beaten in the Fourth Event. Cousin Jess Won Steeplechase, but Had to Lower a Record.

WASHINGTON, D. C., Nov. 20.—Not a favorite showed in front at Bennings today, five second choices and the rank outsider, Handicapper, quoted at 20 to 1, in the last event, winning. Cousin Jess won the steeplechase after a hard drive in the stretch, lowering the best previous time of 2:09 by 7 seconds. FULTZ MISSED PRACTICE.

The Stars Captain Suffered From Neuralgia—Trying to Block Guards Back Formation.

When the Homestead stars lined up for practice over at Exposition park yesterday afternoon it was easy to be seen that there was something wrong, because the actions of the players plainly showed that. The trouble was that their leader was missing and the players felt lost without him. Captain Fultz was over at his home nursing a slight attack of neuralgia and therefore could not get out for practice.

The captain was not the only player missing from the line-up, as "Toppy" Hunt was nowhere to be found and it was learned that in the scrimmages with the reserves on Tuesday he had injured his hand and a day of rest was ordered for him. Arthur Poe was also out of the game, as practice was considered as he was nursing his sore knee at the park and said he would be in shape for practice this afternoon. Perry Hull was out in uniform but he should have been in bed resting up that shoulder which was injured last Saturday and which is a more serious injury than he first supposed. Hale, however, is a fellow of indomitable will and pluck, and he is bound to break into that Philadelphia game even against the wishes of his physician.

The team was in charge of Center Pete Overfield yesterday and he worked the players fully as hard as Coach Fultz is wont to do. He first had them do some punting, then they ran the ball back from the kick-off in order to get a line formation of interference and signal practice followed. Overfield also spent considerable time drilling the players on how to break up formations which the Philadelphia eleven is sure to use.

As the Quaker team is largely made up of ex-U. of P. stars it is natural to suppose that the guards back formation will be used on Saturday. This is a style of play with which Overfield is most familiar, as he was Pennsy's star center for three years and he also knows a trick or two about the breaking up of the play. This was the line of work the stars were being coached on yesterday afternoon and this practice will be continued today. Tonight the team will leave for Philadelphia and every player will be taken along.

SCORED ON BY SCRUBS.

Wash.-Jeff. Eleven Treated to a Surprise—Must Brace Up to Beat Indiana.

WASHINGTON, PA., Nov. 20.—(Special.)—In the practice of the W. and J. football team this afternoon at College park, the scrub team sprung a surprise on the 'varsity and scored on them twice. The 'varsity team was weakened somewhat by the absence of Capt. Aiken, Sefton and Sutter, and this may account to some extent for the showing made by the scrubs. In the first half the scrubs took the ball steadily down the field and when on the ball was carried over the line and placed behind the goal posts. In the second half a 'varsity man fumbled the ball and a scrub picked it up and sprinted 30 yards for the touchdown. The scrubs failed to kick either goal and the 'varsity was unable to score against their weaker opponents, the final score in the practice game being 10 to 0 in favor of the scrub team.

W. and J.'s defense was woefully weak this afternoon, and unless they take a brace they cannot expect to win from Indiana. Fumbling was greatly in evidence again today and the coaches became exasperated with the men and called them down repeatedly. The scrub team on the other hand was in the best of form and has appeared this year and they are playing great ball. Their offensive work was great, and the 'varsity were not able to make any gains through them. The scrub team used the "wing shift" play of the Indians this afternoon again and the 'varsity were unable to break up as they did yesterday, and the formation netted gains for the scrubs repeatedly.

The practice today was one of the longest of the year as darkness had settled down when the football men left the field. After the regular line-up against the scrubs the 'varsity team was given considerable work in punting and receiving punts, and the men seem to be improving along this line. It is thought that all the injured men will be able to get into the practice tomorrow and the men will be given hard work for the rest of the week.

BACK IN THE FOLD.

Rube Waddell Signs to Pitch for Chicago Again.

CHICAGO, Nov. 20.—(Special.)—C. Edward Waddell—the great and only Rube—made peace with James A. Hart yesterday. The huge pitcher climbed into Mr. Hart's office, said that he would like to pitch some good ball next spring, and guaranteed that he would report in April in the finest possible condition. Whereupon great friendship became manifest on all sides, and the return of Rube to the fold was duly celebrated.

With Waddell came Virgil Garvin, the long pitcher, who jumped to the American last season. Garvin belongs to the New York club, should be return to the National fold. He said, frankly, that he did not know just where he was at; that the Milwaukee players could not understand the situation, and that he might be found with some other club in the spring.

Waddell volunteered during the day to hurl the turnip for Jehan Bedini, the Englishman who, armed with a fork, is to impale the vegetable when dropped from the roof of the Masonic temple. The Briton's manager, however, declined the Rube's offer with many thanks, admitting that he feared Mr. Waddell, who might sky the turnip clean through the Londoner's cranium.

Conroy Will Stick to Pirates.

President Dreyfuss of the local ball club received a letter from "Wid" Conroy yesterday in which he stated that the American league people had been making him big offers to that organization, but he had rejected all offers and will stand by his contract and become a Pirate next season.

Among the Amateurs.

A good game is expected when the North End team line up against the Primrose on Saturday. The game is to be played on the former's grounds. The P. A. C. would like to hear from the McKeever academy for November 30. Address Webster Hinman, phone 62 North.

CAUSE OF DEAFNESS.

The Most Common Cause Only Recently Discovered.

It has been stated on good medical authority that nine-tenths of cases of deafness are caused from catarrh or from sore throat trouble.

The little tube which leads to the ear from the throat is lined with a sort of velvety structure called mucous membrane. This membrane is simply a continuation of the mucous membrane lining the throat. When disease of any sort attacks the mucous membrane of the throat it is very liable to extend into the Eustachian tube and up into the ear.

The history of nearly all cases of deafness is like this. A cold is contracted and neglected, other colds are taken, the throat becomes sore and inflamed, which is aggravated by particles of dust and germs from the air. This condition causes the disease to spread into the tube that leads to the ear.

It seems a little far-fetched to say that most cases of deafness are caused from catarrh, but it is certainly true, and anyone who has had a severe catarrhal cold must have noticed how the hearing was affected while the cold lasted.

With catarrh sufferers this impairment of hearing becomes chronic and grows worse the longer the catarrh is neglected.

You can cure catarrh and deafness by the regular use of an excellent new preparation called Stuart's Catarrh Tablets, composed of antiseptic remedies which act both on the mucous membranes, but principally and most effectually on the blood, eliminating the catarrhal poison from the system.

People whose hearing is defective may think it a little remarkable that a simple and harmless tablet would very often remove all traces of deafness, but when it is remembered that catarrh causes the deafness and that catarrh is easily cured by the regular use of Stuart's Catarrh Tablets there is no mystery about it.

If you are subject to nasal catarrh or catarrh of throat, bronchial tubes or catarrh of stomach and liver, the safest and most effective treatment is the new catarrh specific, Stuart's Catarrh Tablets, sold by all druggists at 50 cts. for full sized package. 1121xwpl

BACKERS OF NEW STEEL COMBINE

Constituent Companies of the Proposed Corporation Are Uncovered.

REPUBLIC AND VALLEY CONCERNS IN IT

H. C. Frick Refuses to Say Anything About the Rumor That He Is Interested in the Deal—The Gold Shipments Explained by Figures.

(BY PRIVATE WIRE TO THE GAZETTE.)

NEW YORK, Nov. 20.—That intangible thing which, for want of a better name, has been called "the mysterious $100,000,000 steel combine," was laid hold of today and examined at close hand for the first time since it began to be whispered around that some such project was being revolved. There has been a disposition to cast cold water upon it, largely because of the apparent efforts that have been made to invest the uptown conferences with unnecessary mystery. Repeated efforts were made to discover what interests were participating in these conferences held at the Waldorf and elsewhere, but whoever they were they managed to elude the curious and carry on their negotiations in secret. Today, however, the same gentleman who hitherto has done all the talking, which was very little, vouchsafed additional unofficial details, from which there is evolved the following story:

Interests connected with the Republic Iron and Steel Company, the Sloss-Sheffield Iron and Steel Company, the Youngstown Sheet and Tube Company, the Susquehanna Iron and Steel Company and several blast furnaces in the Mahoning and Shenango valleys are among those who have been in conference at the Waldorf-Astoria with the end in view of effecting a consolidation. The amount of capital understood to be involved is $50,000,000, and this is the mysterious combination that has been bothering iron and steel men for several days. Negotiations have not yet emerged from the preliminary stage and success is by no means assured. Nothing definite has been developed.

Companies That Will Not Join.

The Colorado Fuel and Iron Company, Tennessee Coal and Iron Company, Sharon Steel Company and Jones & Laughlins, limited, have been mentioned in connection with the consolidation, but it is not likely that any of the foregoing concerns will be numbered among the constituent plants of the combine. The Colorado Fuel and Iron Company and Tennessee Coal and Iron Company were at one time regarded as possible constituents, but negotiations therewith have been abandoned. Officials of the Sharon Steel Company and of Jones & Laughlins, limited, deny that they are involved.

The Sharon Steel Company is one of the most important concerns of its kind in the country and is regarded as the most formidable rival of the United States Steel Corporation in certain grades of finished product. Before July 1 of next year it will have in its employ not less than 5,000 skilled men. The Jones & Laughlins concern is capitalized at $20,000,000 and is regarded in iron and steel circles as among the foremost steel companies in the United States.

The names of the blast furnace companies that are considering the question of selling out to the new steel combination could not be learned today. The merchant furnaces of the Mahoning and Shenango valleys have an output of something like 3,000,000 tons a year, and a large percentage of the iron produced is purchased by the United States Steel Corporation. In fact, the United States Steel Corporation is the largest customer of the Mahoning and Shenango valley furnaces, and their sales to it are used as a basis for regulating the Bessemer pig iron market of western cities.

Some of the Possible Constituents.

The Youngstown Sheet and Tube Company is a new enterprise controlled by the Messrs. Wick of Youngstown, O., and certain interests formerly of the United States Steel Corporation. The Sloss-Sheffield Steel and Iron Company is capitalized at $14,200,000, of which $6,700,000 is preferred and $7,500,000 common stock. Its funded debt aggregates $3,185,000.

The Republic Iron and Steel Company has an authorized capitalization of $55,000,000, of which $25,000,000 is common and $30,000,000 preferred. Of that amount, $20,852,000 preferred and $27,352,000 common, or a total of $48,204,000 shares, are outstanding. Its plants are located in Birmingham, Youngstown, Brazil, Ind.; Massillon, Ironton, Muncie, Chicago, Cleveland, Leetonia, O.; Marion, Ind.; Corning, New Albany, Ind.; Indiana, Pa., Sharon, Moline, Ill.; Springfield, Ill.; Toledo, East St. Louis, Terre Haute, Alexandria, Ind., Frankfort, Ind.; Muscatine, Ind.; Pittsburgh, New Castle, Negaunee, Mich., and Virginia, Minn. Among the New York directors of the company are August Belmont, Grant B. Schley and George R. Sheldon.

Perhaps the most important intimation of all is that H. C. Frick in some way is interested in the project. How authentic this is, remains to be seen. Mr. Frick himself refused today to be interviewed on the subject.

Gold Exports Explained.

The Wall street statistician has undertaken to account for the gold exports. This was to be expected. The statistician almost invariably comes along after other experts have failed a little in certain facts and figures the explanation of whatever has been puzzling ordinary mortals. His figures this time are of considerable interest. He shows, for example, that our total imports of merchandise during September and October, amounted to $15,392,231 more than the total imports for the two corresponding months of last year. He shows, again, that our exports for September and October, this year, amounted to $263,075,993, or $26,257,089 less than for the corresponding months of the previous year. So, if American exports for these months showed a decrease of $26,287,089, and imports an increase of $15,392,231, the exchange available on this market for the settlement of sterling obligations abroad, has been $41,697,320 less than during the corresponding period of last year.

About $17,500,000 in gold has already gone out this month. Of course, it will be impossible to foretell how much of the $41,679,320 shortage in exchange on this market will have to be made up by shipments of the yellow metal. Gold exports during October amounted to $3,808,443, an increase of $3,666,481 over the exports for the corresponding month last year. During September Wall street imported gold to the amount of $11,642,070, an increase of $3,780,518 over the imports for September, 1900.

No gold in addition to the $50,000 engaged yesterday, was taken out at the assay office today for shipment by the French steamer sailing tomorrow.

Small Relief of Car Famine.

Local iron and steel interests had word today from Pittsburgh that the embarrassing car shortage is likely to continue until the close of navigation on the lakes. A large number of cars that are employed in the ore-carrying trade can then be turned over to the iron and steel manufacturers. This is not such a relief, of course, as the manufacturing interests would like to have, but it is the best the railroads can promise, and it is something.

One authority, speaking of the shortage of transportation facilities, remarks that low water in the rivers has had a great deal to do with causing the car famine. A vast amount of freight that ordinarily should have been transported via the Missouri and Mississippi rivers, has been given over to the railroads.

Blast Furnaces Sold Up.

Joseph Butler, president of the Pig Iron association, which represents the independent furnaces of the Mahoning and Shenango valleys, was in New York today. In the course of a cheerful review of the trade outlook he found occasion to say that every furnace in his association is sold up to the close of the year and will soon be in the market for 1902. The advance in southern iron, he said, would not cause furnace interests in his association to advance prices. The object of the association, he pointed out, is to emulate the example of the United States Steel Corporation in the maintenance of prices on a stable basis. Mr. Butler said, incidentally, that he is ignorant of any negotiations tending toward a consolidation of merchant furnaces in his district.

Irondale Tin Plant Let Alone.

The district managers of the American Tin Plate Company finished their business here today and returned to Pittsburgh. There had been some talk of the question of dismantling the Irondale plant being decided at this meeting, but Mr. Leeds said today the district managers had no authority to decree the fate of that or any other property. The Irondale question, he said, would be dealt with at the proper time and by the proper authorities.

E. W. HARDEN.

NEWS FROM THE MINES.

Latest Finds in Gold, Silver, Copper and Other Metals in the Far Western States.

NEW YORK, Nov. 20.—A rich ore-chute has been encountered in the 800-foot level of the El Paso, in Poverty gulch, Cripple Creek. Ore carrying $150 gold to the ton has been struck in the Scarlet, near Red River N. M. The streak is six inches wide at a depth of 60 feet.

Leadville reports that the Rialto Company is paying its indebtedness in the camp. About $30,000 was checked out last week. An open as a full settlement is made work will be resumed on the property.

A mill-run of ore from the Welch, near Georgetown, Col., Bull, weekly returned 638 ounces silver and 25 per cent lead to the ton.

According to Bisbee (Ari.) reports, $2,000,000 has been offered and refused for the South Bisbee copper mines. These mines are so intimately connected with the Phelps-Dodge properties that the latter wish to consolidate.

Preparations are being made for reopening the De Lamar mine in Eastern Nevada. Meanwhile the tailings are being run through at the rate of 200 tons a day. A valuable strike was recently made on the property.

Work on the construction of sulphuric acid works on the Black Warrior property near Cordova, Ari., is being pushed. The plant will have a capacity of 50,000 pounds of acid daily.

Late advices from the New River district, Western Virginia, Col. Bull's weekly states that that section may prove of even greater mineral importance than was predicted. In addition to its deposits of copper, it may develop several gold mines.

A ledge 100 feet wide has been located in Mono county, Cal.

In the Stone Cabin claim at Tonopah, Nev., a strike of $400-ore is reported at a depth of six feet.

Dry Goods.

NEW YORK, Nov. 20.—There have been no developments of any moment in the cotton goods market today. Export buying has fallen off during the week. Print cloths were dull. Prices of brown bleached and coarse colored cottons are unchanged. Print cloths and prints without new feature. Men's wear, woolen and worsted quiet and unchanged. Dress goods dull at previous prices.

Coffee and Sugar.

NEW YORK, Nov. 20.—Coffee futures opened steady in tone, with prices 5 to 10 points higher on room covering and European buying, prompted by a firm ruling of the French market and smaller primary receipts than expected. Subsequent fluctuations were narrow and the day's business insignificant, amounting to but 20,000 bags, although the prevailing undertone was firm, with the absence of bear aggressiveness. News from the crop center was scarce and the changes in Brazilian markets unimportant. The local market closed steady at a net gain of five points. Sales included December at 6.50c; January, 6.60c; March, 6.75@6.80c; May, 6.95@7.00c; July, 7.15c; August, 7.25c; September, 7.35@7.35c; October, 7.35@7.40c; spot Rio steady; No. 7 invoice, 8¼c; mild, steady; Cordova, 7½@11c. Sugar, raw steady; fair refining, 3 3-16@3¼c; centrifugal, 96 test, 3 11-16@3¾c; molasses sugar, 3c; refined steady.

LARGE BUYING BY BULL POOLS

Manipulation for an Advance Apparent in Several Active Issues.

MONEY STILL TIED UP IN NIPPER DEAL

Public Still in the Dark On Certain Details of the Affair—Hostility in Northwestern States Causes Investors Some Doubt About It.

NEW YORK, Nov. 20.—The principal characteristic of today's market was the decreasing interest shown even by the professional operators, who have had the market practically to themselves for some time past. The fact that no further gold would go out tomorrow, beyond the $500,000 engaged yesterday, afforded some relief from the feeling of depression, there having been apprehension that the French steamer, sailing tomorrow, would carry away several million dollars. The professional bulls sought to stimulate this into a renewed movement for the advance, and in this intent there was large buying and active manipulation of a limited number of stocks at the hands of speculative pools.

The growing evidence of a common purpose among the executives of northwestern states to combat the purposes of the Northern Securities Company and to seek the aid of additional legislation for that purpose has an unsettling influence upon sentiment. Much remains to be cleared up regarding the actual organization and operation of the settlement which was the object of that company's formation. The public is still absolutely uninformed as to what securities or considerations have been passed by which the Union Pacific was allowed to share the control of Burlington. If the balance of power in the northwest is to be maintained only by actual holdings in the Northern Securities Company, it is not clear how either of the parties can afford to bring a market in the face of the holdings by which it was calculated there would be a release of a part of the immense capital which was locked up in the struggle for control.

The transcontinental stocks generally continued to show depression in spite of the efforts to get prices higher at other points. The local tractions continued in large demand but were irregular on occasion, Manhattan falling 2 per cent, while in the coalers, New Jersey Central, particularly, rising 6¼ on rumors of a coming increase in dividend. The Vanderbilts developed marked strength at advances of 3@5 following the sale on 50,000 shares of Michigan Central at 140. Peoples Gas was forced down an extreme 3¾, to 98½, in the late dealings on the news of the heavy appraisement for taxation fixed by the Illinois state board of equalization. Amongst Locomotive stocks suffered from realizing. Chicago, Indianapolis & Louisville and St. Louis & San Francisco were strong on reports of good earnings. The money market was distinctly easier today and the rate for call loans did not rise above 6 per cent, which has been the recent maximum, and fell away decidedly in the late dealings. Foreign exchange continued firm and the opinion is still held that gold will go out on Saturday to London direct, especially as remittances are for American bills subject to the last installment on the British consol issue, which is payable in London on December 5.

Business in railroad bonds was not large and the price movement was irregular. Total sales, par value $2,295,000.

United States old 4s advanced ⅛ per cent on the last call.

WALL STREET FEATURES.

Total sales 632,700 shares.

New Jersey Central rises 6¼.

Peoples Gas forced down 3¾.

The market on the Pittsburgh stock exchange yesterday was dull and irregular in the stock department, but unusually active in the bond. The total sales were somthing more than 3,800 shares, $76,000 bonds and 560 receipts. These were divided among 27 different issues, nine of which advanced from ⅛ to 1½, while 11 declined from ⅛ to 5. Seven were unchanged. There were not many features in the stock list. Consolidated Ice common, which yesterday advanced to 16, was ⅝ lower at the opening, and broke later to 15. A rally at the close carried the price back to 15¾, making the loss for the day ⅛. The sales were over 600 shares. The preferred developed strength, 100 shares selling at 37¾, a gain of ¾ for the day. Afterward 37 was bid for more. Window Glass common was fairly active, with sales of 620 shares, but closed easy and ¼ off, at 54¾. The preferred did not sell. In the bank and trust group there was both evidence of heaviness and strength. Allegheny National Bank sold at 109, a decline of $1, and Third National Bank of Pittsburgh sold at 184¾, a decline of ¾. After the sale, however, this stock rallied to 180 bid, with no offers under 190. Safe Deposit and Trust Company was $1 lower, at $105. In the quotations Fidelity Title and Trust Company continued its daily record by declining $1, to $554 asked. Bank of Secured Savings advanced to 103½ and Union Savings, Penn and Trust went up $3, to $215 bid, a new high record. Pittsburgh Trust opened $5 lower at $540. The steel issues were dull but about steady, the sales being small and the prices not materially changed. There were large orders on both sides of the market for Crucible Steel common, at 22⅝ bid, 23 asked. Electric seconds were firmer and ⅛ higher. Airbrake was unchanged. The coalers were very dull and not appreciably changed. Fire Proofing common made a show of strength at the last call, advancing ⅝ to 32⅜. The preferred was unchanged. In bonds $61,000 River Coal 6s sold at 116⅞@116¾, $1,000 at the top and a block of $60,000 at 116¾, a decline of ⅛. M. L. & P. 5s were firmer and 2½ higher, at 106 for $10,000. Southern Traction 5s were firm, but unchanged, at 106½. Consolidated Traction receipts were firm and active. Philadelphia common offered at 48½ and a small lot of the preferred sold at 46. There were no other noteworthy changes.

The following is a complete summary of the day's official transactions on the Pittsburgh stock exchange. It shows the change in the closing selling prices, compared with the last preceding sales, the total sales of each security, the opening, high, low and closing prices, new high record and final bids and offers:

The Pittsburgh Trust Company report shows an increase of 150 per cent in deposits for the year ending December 31, 1901, and an increase in earnings of 105 per cent. Savings deposits increased 47 per cent. The total net earnings were $304,354 18, out of which $135,000 was paid in dividends, $29,185 04 was paid in interest on account of new stock, and $140,169 14 was added to undivided profits. The company's capital now stands at $2,000,000, surplus $2,0000,000, and undivided profits $2,000,000.

According to a good authority on Pressed Steel Car any report of a deal with the United States Steel Company is now entirely premature. The two concerns are closely affiliated, the former buying from the latter about 45,000 tons of steel monthly. The Pressed Steel Car Company has recently established works for making repairs and it is estimated that the American Window Glass common, Marlin 30 and Schoyer 20; Hill bought 220, Lawrence 200 and Hall 100.

John Magninnis, vice president of the Montana Ore Purchasing Company, has begun a suit at the county court of the Boston & Montana Copper Company for the appointment

SAYS FRAUD WAS PRACTICED

Aged Widow Wants Satisfaction of a Damage Suit Set Aside.

CHARGES A SOLICITOR WITH DECEIT

Mrs. Hasson Files a Petition Alleging She Settled a Claim Against North Braddock Because of an Alleged Misstatement of Facts.

A petition was filed by Margaret Hasson yesterday requiring Attorney William Yost, solicitor for the borough of North Braddock, to show cause why the satisfaction of a damage suit against the borough should not be set aside. She charges misrepresentation.

Mrs. Hasson is a widow 60 years old, can neither read nor write, and supports herself by sweeping out cars for the Pennsylvania railroad at Pitcairn. On December 17, 1900, she had her leg broken by falling through a sidewalk in North Braddock. She employed Attorney A. B. Steyenson to bring suit against the borough for $150 damages.

The petitioner states that William Yost, attorney for the borough, on November 7, sent two agents and employes of the borough, one of whom was the street commissioner, to her home with a horse and buggy; that they persuaded her to accompany them to Yost's office on very important business; that being hard pressed she was taken there by Morris O'Brien, who appeared to be in Yost's employ.

In Yost's office, she says, she was told that her attorney had abandoned her case and had left town. Yost further stated that her attorney cared nothing for her case, and that she had better settle her suit against the defendant; that he was willing to give her $100 as a charity, not that she was entitled to it, for she was sure to lose the case under the circumstances. Mrs. Hasson says she was amazed and frightened at these declarations and finally after the above representations, all of which she declares were afterward learned to be absolutely false and a fraud upon her, were repeated by Yost, she signed a paper releasing all her claims against the borough for damages.

BRACE BROS. GET DAMAGES.

Pennsylvania Water Co. Was Negligent—Equity Suit Against Jos. Platte & Co. Dismissed.

Judge E. H. Stowe handed down two opinions. In the case of Brace Bros. against the Pennsylvania Water Company judgment was awarded the plaintiff, and in the case of Joseph Platte against Joseph Platte & Co. and others the court found for the defendants. Attorney R. M. Barnes represented the firm.

The action of Brace Bros. against the water company was brought to recover damages for failing to carry out an agreement to steadily furnish the laundry of the plaintiff firm with water.

The court says it is clear that at the present time the defendant company has a plant to supply an abundance of water, and the failure of the company to furnish the plaintiffs with water for three days was the result of an unexpected break in the machinery. The court says the liability of the defendant depends upon whether or not it has been guilty of negligence in not furnishing the plaintiff with water under the circumstances, as it appears that the company could have got the water from the city of Pittsburgh under an agreement, which, in the opinion of the court, was the company's duty. Judgment is given the plaintiff for $136.

The case of Joseph Platte against Joseph Platte & Co. was an equity proceeding in which Platte alleged that although he is the largest stockholder in the defendant company he had no voice in its management; that he was ignored by the board and would not obtain a financial statement of the condition of the company. The court says the plaintiff failed to show anything that would authorize it in interfering with the management of the firm's business; that he was allowed access to the books, and that in asking for an expert he was demanding more than he was entitled to. In conclusion the court says it finds nothing in the evidence to show that the business was improperly carried on, and dismissed the bill at the cost of the plaintiff.

LEGAL BRIEFS.

A suit in divorce was entered by Alexander Sunderland against Emma V. Summers, alleging desertion.

Daniel G. Donovan took out letters of administration on the $17,300 estate of Joseph W. Dunshee, late of Reynoldton.

An order of court was made joining the two petitions filed against Jacob Shapira, bankrupt, making one instead of two cases against him.

W. S. Thomas took out letters on the $2,300 estate of Mary A. Thomas and like letters were granted to Christopher Ward on the $1,162 estate of Miss Alice Ward.

Annie Seliger has sued the Allegheny General hospital for $10,000 damages. She says that while working for the defendant she had one of her hands taken off by a wringer.

S. G. Bessinger and others sued the estate of Sarah O. McKnight for $2,000 damages. The plaintiffs say they bought property in the Twenty-seventh ward from the estate and discovered later a gas main crossed it.

The report of the commissioner was filed in the case of Anne A. Shaw against Emmet D. Shaw. They were married May 2, 1892, and desertion by the respondent is said to have taken place March 20, 1897. Mrs. Shaw testified her husband said he would rather go behind the bars than live with his wife.

The report of the commissioned in the divorce suit of Mary G. Hall against August Hall was filed. The couple was married June 10, 1890. Mrs. Hall says that on March 29, 1899, while she was awaiting breakfast for her husband, he entered the room and said he would never eat with her again, and he kept his word.

The case of Mrs. J. S. Gordon against Moon township is on trial. The plaintiff was riding horseback across a bridge and the animal tripped on a rotten plank, throwing the plaintiff into the creek below and badly injuring her. At the first trial of the case the plaintiff was awarded $5,000, but a new trial was granted by reason of the improper remarks by an attorney interested to the jury.

An answer was filed by the libellant in the diverce suit of Benjamin F. Schriver against Henrietta Schriver, to a rule to show cause why he should not pay his wife alimony. The husband says that his wife took his wages and deserted him, leaving him suffering from bullet wounds, making it impossible for him to labor, and denies a charge of infidelity, but makes a like charge against his wife and his brother.

The case of Smith & Benham against Curran & Hussey is on trial in the United States circuit court. The plaintiffs claim that the defendants agreed to build a wooden flume line in San Luis Rey valley, California, and to organize an irrigation company, but that they failed to do either, and $68,000 damages are asked. The defendants allege that the nature of the country and kind of work were misrepresented and that they were deceived in entering into the contract.

George West, a riverman, filed a suit for damages against the steamboat Defender. The plaintiff claims he was hired to make a trip from Pittsburgh to New Orleans and return, that on the return trip the boat stopped at Cincinnati. Here they informed the crew that instead of continuing to Pittsburgh the boat would return to New Orleans. West quit work and asked for his wages and transportation to Pittsburgh. The latter was refused and he brings suit to recover his fare from Cincinnati and $75 for wages.

Ancillis Ancoranni entered suit against Thomas McNally to recover $1,874. The plaintiff claimed that he and the defendant made an agreement whereby he was to furnish McNally with 1,000 cubic yards of slate at Coal Center. The plaintiff alleges he cannot read or write English as the defendant knew, and the latter asked him to sign a contract, which was to be according to the verbal agreement, which he did. Afterward said the writing of the agreement was changed, which led to a difference between the two, and he sued for the alleged balance due on the contract.

IN THE OIL FIELDS.

West of Mannington, near the Marion-Wetzel county line, the South Penn Oil Company's No. 1, on the Jacob Cunningham farm, is holding up at 15 barrels an hour.

Southwest of the Beails Mills development, in Lewis county, the same company's No. 1, on the G. W. McCutchon farm, is producing more than 100 barrels a day from the Stray and Gordon, and is larger than any well in this development that got oil in the Gordon.

J. M. Guffey & Co.'s Nos. 2 and 3, on the S. V. Lynch farm have been completed in the fifth sand and are good for 20 and 25 barrels a day respectively. The South Penn has drilled its No. 4 on the D. S. Ramsburg farm deeper and the Hope has drilled its No. 1 well off from the Stray and Gordon. It is drilling to the fifth sand.

In the Wallace development in Harrison county, Judge Nathan Goff has completed No. 36, on his own farm, and has a small pumper, but good for more than 10 barrels a day.

On Indian creek, Tyler county, the American Oil Development Company has drilled its No. 6, on the Julia Groves farm, through the Maxon sand and has a duster. It will drill to the Big Injun.

On the Ohio side, in the Wolf creek development, in Washington county, the Southwestern Petroleum Company and Hochstetter have completed their No. 40, on the J. P. Dixon farm, and have a duster. Near Lowell Longfellow Bros. have drilled in their No. 2, on the J. Roff farm, and have a show for a 15-barrel producer.

One mile north of Bowerston post, in Harrison county, the Federal Oil Company and Glenn have completed their test well, on the J. P. Brown farm, and have a duster. This well was started early last spring but had been delayed with fishing jobs.

A mile west of the Port Homer development, in Jefferson county, Johnson & Co. have completed a test well, on the John Vantilburg farm, and have a duster.

Receipts yesterday were not large, nor have they been heavy during the week, while there is excellent inquiry, and steady selling, but prices have now reached a point, in nearly all lines, which prohibits speculative purchasing and exchange trading is light. Rye holds its advanced position, in sympathy with corn, and heavy users are staying out of the market except for immediate requirements. Barley is very strong, the market ruling from 69 to 70 cents, although one car was offered on the ex

ROOSEVELT FOR EXCLUSION LAW

The President Assures a Californian His Message Already Favors It.

ELKINS IS OPPOSED TO RECIPROCITY

He Says the Proposed Measures Bearing That Name Are Not What Blaine Worked for—Likely to Head Commerce Committee.

THE PITTSBURGH GAZETTE BUREAU, 603 Fifteenth St., N. W., WASHINGTON, D. C., Nov. 20.

President Roosevelt believes in not only protecting American workmen against the competition of pauper-made goods, but against the admission into this country of cheap labor, and to that end will not only recommend to congress the re-enactment of the Chinese exclusion act, but will urge that it be made even stronger. This information the president gave today to Representative Needham of California.

An anti-Chinese convention composed of business organizations of California meets in San Francisco to-morrow to take action looking to the re-enactment of the exclusion law, and as an ex-officer member of that convention Mr. Needham desired to ascertain the president's views. He was very much gratified when he learned that the recommendation of the re-enactment of the exclusion law was already in the message.

Senator Elkins was another of the president's visitors. On the subject of reciprocity he said:

"I am against all reciprocity that injures home markets. I am opposed to the present view of reciprocity for a good many reasons. Three of them are:

"First—This is not the reciprocity that Blaine desired and urged. That contemplated reciprocity with South America and the West Indies. It did not contemplate reciprocity with Europe. The Pan-American congress of years ago was essentially a congress of countries on this hemisphere.

"Second—I don't believe in revising the tariff through the treaty-making power. That was not intended by the founders of our government. The powers of revision belong to congress and ought to begin with the house, which originates tariff laws.

"Third—In the case of Europe, it would be difficult to satisfy every country. If we made a treaty with one country of Europe, for instance, we would offend another. Why should we have an agreement with France and not with some other country equally as good friends to us?

"Above all these reasons, however, is the great reason that we are getting along well, with more prosperity than we ever knew before, and that we ought to be satisfied with that."

Senator Elkins will call at the White House later to see the president about legislation for the interstate commerce commission. The senator has probably fallen heir to the chairmanship of the interstate commerce committee of the senate through the advancement of Senator Cullom to the chairmanship of the foreign relations committee.

"If the senate makes me chairman of the interstate commerce committee," said the senator, "I shall introduce a bill to take the place of the Cullom bill of the last congress, and after careful study of the question I feel sure that I can propose a measure that will satisfy both the railroads and the interstate commerce commission. I know I am regarded as a railroad man, but still I believe I shall succeed in this undertaking, which naturally falls to the chairmanship of the interstate commerce commission."

PENSION FOR MRS. M'KINLEY.

Senator Hanna Will Introduce a Bill for That Object.

WASHINGTON, D. C., Nov. 20.—It is states that Senator Hanna, immediately after the opening of congress, will introduce a bill providing for a $5,000 annual pension to Mrs. McKinley during her lifetime.

The following pensions were granted today:

Pennsylvania—Godfrey K. Biber, Allegheny, $8; Theodore J. Ballantine, Pittsburgh, $12; David E. Longsdorf, Mechanicsburg, $10; John K. Kelzey, Allegheny, $12; John C. Mark, New Alexander, $12; Theodore Robison, Mercersburg, $10; Maurice Dunbar, Phoenixville, $10; Caroline Foy, Homestead, $8; Martha McFarland, Stateville, $8; Catharine I. Ferris, Rochester, $8; Elizabeth J. Cherry, Bellwood, $8; Hannah Crim, Shaw, $8; Mary Reddick, Allegheny, $8; Georgetta Shotts, Irwin, $8.

Ohio—Samuel Winans, Blanco, $8; Thomas Boyce, Kimbolton, $50; James M. Moore, Streetsboro, $12; Sarah J. McLaughlin, Ava, $12; Catherine Curnan, Wellsville, $8.

West Virginia—Anthony Bicker Dudley, $8; John W. Davis, Martinsburg, $8; John L. O'Dell, $10.

CAPITAL PERSONAL MENTION.

Mr. and Mrs. Westinghouse to Refurnish Blaine Mansion.

WASHINGTON, D. C., Nov. 20.—(Special.)—Mrs. James G. Blaine is removing the furniture from her former home on Dupont circle, which for several years was leased, furnished, to Mrs. George Westinghouse. Mrs. Blaine will retain most of the historic pieces associated with her distinguished husband for her present home on K street. Mr. and Mrs. Westinghouse, who recently purchased the Dupont circle property, will refurnish the mansion throughout.

Among the recent arrivals here are Maj. W. S. McLain of Pittsburgh, Representative Diemer of Williamsport and S. C. Fincke of Ellsworth.
